VOL. 45. VICTORIA, B. C., TUESDAY, JULY 7, 1914 NO. 5

FEDERAL TROOPS STATIONED AT VERA CRUZ IN REVOLT AGAINST OFFICERS

Carranza Agents Pass American Lines to Join Revolutionists Against Huerta Rule and Prevent Conflict Within Range of United States Outposts

Vera Cruz, July 7.—Word of a revolt on the part of a large number of the federal troops stationed along the line in front of the American outposts reached constitutionalist agents in this city late last night. The advices conveying the information also expressed the fear that General Huerta would send a punitive expedition from Cordoba against the mutineers.

In order to prevent a clash between forces loyal to Huerta and those reported in revolt near the American lines, which might result in complications with the American outposts, Octavio Campero, Carranza's agent here, appealed to General Funston for permission to pass the lines in order to instruct the mutinous troops to move rapidly away from the neighborhood of Vera Cruz into territory held by the constitutionalists.

General Funston, who already had been informed that unusual developments of some kind were taking place within the federal lines, had given orders to the outposts to maintain unusual vigilance. Campero and other constitutionalist agents have been allowed to pass the American lines. They plan to poin the revolting federals, and hope to be able to avoid any action which might bring about firing within range of the American lines.

Washington, July 7.—Bridadier-General Funston in a dispatch to the war department to-day confirmed reports of a mutiny among General Huerta's forces before the American outposts at Vera Cruz. General Funston reported the Mexican commanded had informed him of the uprising and of the threat of the mutineers to attack the American lines. If an attack should be made, in view of the Mexican commander's action in notifying General Funston, it would not be regarded as an attack under orders.

Carranza's action in dismissing General Felipe Angeles from the constitutionalist army, with its prospects of causing another break with Villa was the principal topic of discussion to-day among constitutionalist agents here. Charles A. Douglas, General Carranza's counsel, declares openly that Angeles must be removed from the situation before peace could be brought about between Carranza and Villa.

According to one personal message from Villa received here to-day from Torreon, differences between himself and Carranza are being satisfactorily adjusted. No mention was made of Angeles.

Pending the outcome of the Torreon conference, Carranza's agents continued their waiting for his decision as to the proposed conference with Huerta's delegates. Juan Urquidi, secretary of the constitutionalist agency, who recently started for Mexico on a confidential mission, returned to-day. His friends urged him not to join Carranza because of his avowed support of Villa.

M'VEITY SAYS CONTROL BOARD IS MISCHIEVOUS

Mayor of Ottawa Writes Council That System Gives Control to Few Men.

Ottawa, July 7.—In a letter to the city council last night, Mayor McVeity urged the abolition of the board of control system, asserting that it is a mischievous institution and does not fit in with municipal government but hands the power over to a clique.

The matter was not dealt with, as his worship left the council meeting in protest against the reinstatement of the city hall caretaker, whom he had discharged for being intoxicated while on duty.

SOCIALISTS MAY SIT WHERE LORDS DEBATE

Plans for Remodeling Upper British Chamber Include Abolition of Hereditary Right, Election by Lower House and Equal Church Representation

London, July 7.—With the announcement made in the House of Commons yesterday by Premier Asquith that the plans of the government for the remodeling of the House of Lords would be presented to parliament before the end of the present session, considerable interest has been revived regarding the lines that will be followed. It is understood that the proposal is for the constitution of a new second chamber to take the place of the House of Lords. It is not expected that any attempt will be made this session, following the introduction of the proposals, to translate them into law, but they are being made in accordance with a promise made in the king's speech at the opening of parliament.

While the scheme is not yet complete it is known that the hereditary principle, which even many Unionists oppose, will be largely or entirely eliminated, and that the other churches of the kingdom will be given similar representation to that now enjoyed by the Established Church of England. What the Liberal party, except those opposed to any second chamber at all, aims at is to secure that the new second chamber shall, to a large extent, be in union with the House of Commons. In order to obtain this it is probable that every freshly elected House of Commons will have the right to nominate a certain proportion, perhaps one-third of the second chamber. Thus if a House of Commons is Liberal, so will be the other branch of the legislature, and, if, on the other hand, it should be Conservatice, it will be able to constitute the second chamber in harmony with its own views.

As the House of Commons is becoming more and more a house of groups, it would follow that the various groups would have representatives in the second chamber, and England may yet live to see Laborites, Socialists and even Irish Nationalists seated on the benches now sacred to peers of the realm.

If this plan were adopted it would be a question whether it would be necessary to continue those provisions of the parliament act, which prohibit the Upper House from vetoing House of Commons bills more than twice.

However, this is one of the tremendous tasks which the Liberal party has undertaken and to carry which it must overcome not only the opposition of the Unionist party, the church, the present peers, but that great body of conversatism which will brook no change in established things and customs.

WOMEN BOMBARD KING AND QUEEN WITH PAMPHLETS

Edinburgh, July 7.—The suffragettes took advantage of the visit here yesterday of King George and Queen Mary to prepare the usual suffragette demonstration, in which the bombardment of the royal couple with suffragette literature was the feature.

Two women obtained possession of a balcony in a house opposite the station, and as the royal carriage emerged they threw down upon it a lot of suffragette appeals. Then two detectives seized them, spoiling their aim.

The king, looking up, saw the women struggling in the arms of the officers. They were removed to the police station, the crowd along the way giving them a mixed reception of cheers mingled with hooting.

The women gave the names of Lock and Owen. Among their missiles was a paper ball containing the message: "To show King George that women are being persecuted for defending their freedom."

NEW ORLEANS RATS DO NOT SHOW ILL-HEALTH

New Orleans, La., July 7.—Rat extermination to prevent a spread of the bubonic plague in New Orleans was undertaken to-day under the direction of Dr. French Simpson, who was ordered here from New York by Surgeon-General Blue, of the public health service. Several hundred men have been engaged by the city authorities to assist Dr. Simpson and the expert rat catchers who are expected to-day from San Francisco. Of the several thousand rats examined to date none has shown traces of the disease.

SHACKLETON TO EAT UNPALATABLE FOOD

Lard and Oats, Oil, Nuts and Dried Milk Main Articles of Diet

NINETEEN HOUR DAY SEVEN FOR SLEEPING

Explorer Going to South Polar Continent Tells How Hours Will Be Spent

TWO SHIPS FITTING OUT FOR SOUTHERN VOYAGE

London, July 7.—All the provisions for Sir Ernest Shackleton's trip across the South Polar continent are to be packed in sausage skins. "They are the most nutritious part of the composition," says Sir Ernest. "We tried them in Norway but did not succeed. We shall no doubt do better at the South Pole when we are more hungry."

The menu prepared for the party is not an enticing one. It has been decided upon, however, under the advice of the Royal Army Medical College, and is made up of food that is easy to transport and at the same time will keep the body warm and strong. The rations will be 36 ounces a day, compared with the average of three pounds a day eaten by the ordinary person. In the latter there is a lot of waste which has been eliminated from the rations of the explorers.

There will be daylight during the whole five months the party is on the march, so the ordinary day of 24 hours will be disregarded, and a new day of 19 hours established. Supposing the hour for rising on the first day is 7 o'clock, the time table will work out on these lines:

7-8 a.m.—Preparations for the start and breakfast, consisting of three ounces of lard per man, two ounces of sugar, once ounce of dried milk, wheat protein and oats.

8-12 m.—March.

12-1 p.m.—Rest and lunch, consisting of nut food, composed of Brazils, almonds and beach nuts, mixed with oil, and dried milk, oats.

1-5 p.m.—March.

2-7 p.m.—Pitch camp, rest and take dinner, consisting of the same food in the same quantity as breakfast.

7 p.m. to 2 a.m.—Sleep.

The same round of 19 hours will then be repeated.

Sir Ernest explains that the lard and sugar supply heat; the protein builds up muscle; the nuts are the most nourishing food in the world; and the oats, mixed with other rations, afford the bulk necessary to keep the organs from becoming atrophied. "You may feel rather sick when you hear of it," said Sir Ernest, "its rather a greasy compound. Indeed when we tried it in Norway we thought it a very unpleasant sort of ration, but I can assure you that, scientifically considered, it is the finest that has ever been devised. I hope that this time hunger will play a very small part in our troubles."

As the party intends to cut right across the continent, a march of 1,800 miles, they will have to carry all their food with them, and cannot like previous explorers, whose objective was the pole, depend upon food depots on the return march. Therefore the greatest attention is being paid to provisions. The organization is perfect so far as human ingenuity can devise. They are allowing 15 days food for blizzards, but they can go on much shorter rations if necessary. To carry the food motor sledges with aerial propellors will be used for the first time, and in addition there will be one hundred Canadian dogs, which can carry 100 pounds each.

For protection while sleeping a sleeping hood, something after the fashion of an automobile hood, is to be used. This weighs 37 pounds and accommodates six men, whereas the old tents weighed 30 pounds and accommodated three people.

The first 900 miles of the journey will be across land, never before covered by man, and it is here that the chief difficulties are looked for. With the last 800 miles Sir Ernest is fairly familiar having crossed and re-crossed it on his trip to the pole.

The two ships for the expedition, one to take his party out to the Weddell sea, and the other to bring them home from the other side of the continent, the Aurora and the Endurance, are now getting ready for their voyages. The latter is in London and the former in New Zealand.

CARRANZA-VILLA TALK ENDS SATISFACTORILY

Sudden Ending of Conference at Torreon Causes Surprise in El Paso.

Torreon, July 7.—The Carranza-Villa conference came to a close late last night. No statement concerning its transactions has been issued other than that the points at discussion had been settled satisfactorily.

El Paso, Tex., July 7.—Reports of the sudden ending of the conference at Torreon designed to settle the internal disagreement of the constitutionalist revolution were received with surprise by observers here. The amicable tone of all expressions from the south was not reflected at this point, where Carranza and Villa agents still were in conflict on points pertaining to Carranza's currency issue, which has thrown the revolutionary quarrel into the American courts.

Santiago Winfield, named in an embezzlement warrant issued at Washington, came to El Paso from Juarez to-day and gave himself up to the local police. He gave bond and his attorney said he would go to Washington, waiving any state extradition. Winfield was the messenger from Washington to El Paso for the issue of constitutionalist fiat money over the possession of which the Carranza and Villa factions have disagreed.

SENTENCE ON SINCLAIR FOR REBUKE CONFIRMED

Court Holds Socialist Had No Right to Subject Rockefeller to Ridicule or Insult.

New York, July 7.—The sentence imposed on Upton Sinclair last April on a charge of disorderly conduct for attempting publicly to rebuke John D. Rockefeller, jr., for his attitude in the Colorado strike situation, was to-day confirmed in the court of general sessions. When given the alternative in the magistrate's court of paying a fine of $5 or serving three days in the Tombs, Sinclair chose the latter and began a hunger strike. He served two days of his sentence, then his wife paid the remainder of the fine.

According to Judge Crain's opinion given to-day, no citizen has a right to rebuke another citizen by subjecting him to ridicule or insult.

NORWAY VOTES MONEY FOR FAIR AND CANAL

Christiania, Norway, July 7.—The Norwegian parliament to-day voted an appropriation of $27,000 to cover the expenses of the Norwegian official exhibit at the Panama-Pacific exposition at San Francisco and a further $13,500 for the dispatch of a Norwegian cruiser to represent the nation at the opening of the Panama canal.

SYDNEY GRUNDY DEAD.

London, July 6.—Sydney Grundy, the dramatic author, died to-day. He was born at Manchester in 1848. Among his publications were "A Pair of Spectacles," "The Degenerates," and "Frocks and Frills."

INDIAN FREED AFTER 34 YEARS IN PRISON

Pardon Issued for Spopee Who is Thought Not Guilty of Murder

Washington, D. C., July 7.—After thirty-four years behind the bars under life sentence for murder, Spopee, a Blackfoot Indian, was unconditionally pardoned to-day by President Wilson. He will be released at once from the federal hospital for the insane to return to his daughter at Browning, Mont., whom he has not seen since she was a baby.

A party of Blackfoot, visiting Washington months ago saw Spopee, his hair grown grey with his long imprisonment. They established his tribal identity by an Indian song, and one of the interpreters recognized in Spopee the hero of an old legend, who disappeared a score of years ago into some white man's jail. Blackfoot mothers have been singing their children to sleep with a song about him ever since. Officials of the Indian office, advised of his discovery, began an investigation which resulted in his pardon.

Spopee was charged with killing a white man near the Canadian boundary north of the Montana line. It is believed by the department of justice that the murder probably was committed in Canada, and that the territorial court of Montana which tried him at Benton had no jurisdiction. Moreover, it is now believed that Spopee committeed the murder in self-defence. He and another Indian, Good Rider, asked a white man for food. Their request was denied, and the white man denounced Spopee, finally assaulting him with an axe. The Indian contends he fired in self-defence, and his story is credited by the department of justice.

After Spopee's conviction at Fort Benton and sentence to death he was removed to the federal prison at Fort Leavenworth. While awaiting execution the Indian maintained absolute silence. His conduct was so unusual that he was believed to be insane, and after two years he was removed to the federal hospital here, and has been held a prisoner for thirty-two years.

Spopee is regarded as an intelligent Indian by physicians who have examined him since the movement to obtain his release was begun.

Commissioner Sells, of the Indian office, took the case up and arranged to send Spopee back to his people.

POST OFFICE BURNED TWO PERSONS CHARGED

Klamath Falls, Ore., July 7.—Mr. and Mrs. Hugh Clopton, of Bonanza, Ore., were indicted by the county grand jury to-day on the charge of setting fire to the Bonanza post office last winter. The fire destroyed a large part of the town. Witnesses said they saw Clopton leave the post office in the early morning just before the fire broke out. His wife was post mistress at the time and it is alleged the fire was started to hide irregularities.

ADVOCATES INSURING STEERAGE PASSENGERS

Step Would Obviate Necessity of Appealing for Funds After Ocean Disasters Occur.

Liverpool, Eng., July 7.—The chamber of commerce here to-day started a movement with the object of making the insurance of steerage passengers on ocean liners compulsory. Advocates of this policy contended that there would be no difficulty in increasing the passage rates for immigrants in order to cover the cost of the insurance and that such a step would obviate the necessity of making appeal to the public for funds in the case of disasters.

FIVE THOUSAND-MILE JOURNEY TO WIFE ENDS

Captain Ubberoth Reaches Philadelphia After Fourteen Days' Travel.

Philadelphia, Pa., July 7.—Captain H. S. Ubberoth, of the revenue cutter service, ended a 5,000-mile race from Unalaska to-day when he arrived at the bedside of his wife in this city. Mrs. Ubberoth was stricken several weeks ago and a serious operation became necessary. Her husband, who was in command of the revenue cutter McCulloch in Alaskan waters, was notified and left on his long journey fourteen days ago. His son, Lieut. F. E. P. Ubberoth, who was on the battleship Vermont at Vera Cruz, was also summoned and arrived home Saturday night.

Mrs. Ubberoth's condition to-day was unchanged. She refused to undergo the operation until her husband and son arrived.

FRENCH PAPER URGES FUND FOR EXPOSITION

Advice of Temps is Not to Blame People for Faults on Part of Government.

Paris, July 7.—Anticipating to-morrow's debate in the chamber of deputies on the French appropriation for the Panama-Pacific exposition at San Francisco, the semi-official Temps, in its leading article, urges France to participate officially. It says the American public is not responsible for the faults of the customs authorities of the United States, nor for the organized surveillance under their directions in France, on both of which points it is desirable and necessary for France to obtain satisfaction.

The subject, however, the Temps declares, should not be confounded with the question of participation in the exposition. It points out that statistics showed exportations from France to the United States to have almost doubled since 1902.

The newspaper adds the United States always has participated in French expositions, and concludes that if France abstains from exhibiting at San Francisco it will leave the field to its rivals, among them Germany, which is preparing a formidable exhibit.

MEN FROM VICTORIA ARRESTED; CHARGE IS SMUGGLING CHINESE

Seattle, July 7.—The wrecking in a fish trap of a launch bound from Victoria for Seattle, and for which immigration officers were on the lookout, resulted in the arrest yesterday at Friday Harbor, in the San Juan Islands, of two white men on a charge of smuggling aliens into the United States and the capture of two Chinese whom government officials said were being brought illegally into this country. The launch was blown by a gale into the fish trap near Friday Harbor and sank. A fishing tender rescued the four men and took them to Friday Harbor, where an immigration officer arrested them.

The white men gave their names as Ed Jones and George Smith, but the immigration authorities believe the names are fictitious.

The prisoners will be brought here.

CONSTRUCTION MAN IS REPORTED AS MISSING.

Police Asked to Find A. L. Ellison, Not Heard From Since May 24.

Vancouver, July 7.—The provincial police are assisting the relatives of A. L. Ellison, of Vancouver, to solve the mystery of the disappearance of Mr. Ellison, who has not been heard from since May 24. On that day he wrote to his wife from Quesnel, saying that he had just returned from a 300-mile trip in the Babine Lake country, and would write again next day and forward some money. From that time no trace of Mr. Ellison has beeen found, and mail forwarded to him lies uncalled for at the post office at Quesnel.

Mr. Ellison had charge of a considerable amount of construction work for the G. T. P. in the Burne's Lake district, and is highly regarded in his profession. He is 37 years old, height 5 feet 10 inches, with reddish brown hair and moustache.

SHIPBUILDING YARDS IN AUSTRALIA ARE CLOSED

Melbourne, Australia, July 7.—The strike at the All-Red graving dock has closed the state shipbuilding yards. The strike is the result of an old grievance against the harbor trust which refused to recognize the men's union. Three hundred men are affected.

EIGHT ARE ARRESTED ON ELECTION CHARGES

Haileybury, Ont., July 7.—Further arrests in Porcupine for alleged offences against the election act have taken place and a recount will be demanded. To date eight men have been arrested in connection with the election and it is understood that informations are now ready for the arrest of as many more.

LABOR LEADER COMING.

London, July 7.—Philip Snowden, the well known labor leader and member of parliament for Blackburn will, with his wife, sail for Canada on the Virginian.

EMPRESS OF IRELAND JUDGMENT SATURDAY STORSTAD IS SOLD

Montreal, July 7.—The judgment of the commission which inquired into the wreck of the Empress of Ireland will be delivered next Saturday, according to advices received to-day from Quebec.

The collier Storstad, which rammed and sunk the Empress in the St. Lawrence river on May 29 was sold to-day in the Admiralty court for $175,000. It is understood that the purchasers were the original owners.

The Storstad was held as security for damages in $2,000,000 action brought by the C. P. R., owners of the Empress, against the collier. She will be released as soon as the purchase money is paid.

BRITAIN TO DEFEND NAVAL STATIONS BY CIRCLES OF TOWERS

London, July 7.—As a defence against air craft the British government to-day decided to dot the coast of the British Isles with a series of towers, each armed with two quick-firing guns of special design. A circle of towers is to be erected around naval stations such as Portsmouth and Rosyth and at other especially vulnerable points.

SIR LOUIS DAVIES IS TO BE ADMINISTRATOR

Will Act in the Absence From Canada of H. R. H. Duke of Connaught.

Ottawa, July 7.—Sir Louis Davies, of the supreme court bench, was this morning sworn in by Hon. Justice Duff as administrator of the government in the absence from Canada of his royal highness the Duke of Connaught. Chief Justice Sir Charles Fitzpatrick usually acts as administrator in the absence of the governor-general, but he is absent in England.

The law provides that after the lapse of 30 days a portion of the salary of the governor-general shall be paid to the administrator.

FRENCH LOAN IS FORTY TIMES SUBSCRIBED FOR

Applications for $161,000,000 Would More Than Pay French National Debt.

Paris, July 7.—Although the Bank of France has not made any official announcement it was reported on the Bourse to-day that the public had applied for more than forty times the amount of the issue made to-day of $161,000,000 of the government 3½ per cent. loan. If this should prove true the applications have amounted to more than the entire national debt of France.

The loan on its admission to the Bourse to-day immediately rose from 91, the price of issue, to 91.92.

The general market did not respond sympathetically, as is usual when government loans are so well received, probably because capital in France is under the apprehension that heavy special taxes are likely to be imposed.

CROP REPORTS FAVOR FIRST CLASS HARVEST

Damage Through Lack of Rain Offset by Sufficiency in More Places

Winnipeg, July 7.—There have been many anxious moments during the past two weeks when the continued dry weather and intense heat seemed to threaten the crops. In reply to the query as to whether rain was needed, 47 points reported plenty of rain, 29 sufficient rain, 37 rain needed, 22 rain badly needed. As to damage from drouth, 21 points reported slight damage, 13 considerable damage, four very serious damage and a number state that while no definite damage has occurred the absence of rain has lessened the probable yield. Late oats and wheat on spring plowing are reported as suffering the most.

About half of the points reported from 40 to 50 per cent. of wheat heading out, a few report 75 per cent. in head, and the balance from 5 to 25 per cent. headed. A few points only report conditions as actually poor and the great majority report the crop a week to ten days in advance of last year.

The report is highly satisfactory considering the weather which the crop has passed through and bears out the statement made in earlier reports that, speaking of the country as a whole, the crop has had an exceptionally good start, is well stooled, has a strong root and is able to stand adversity. The 22 points reporting rain badly needed will undoubtedly suffer considerable reduction in yield, but the general outlook is still for a crop fully up to, if not over, the average.

A very few points report very slight hail damage. No damage from fly was reported but a few points report minor damage from cut worms and gophers. The fact that the past few days of intense heat have not brought hail is most satisfactory.

The general condition is much more encouraging than at the corresponding date of last year. The specially dry areas are a part of the Mennonite reserve in Manitoba and a portion of Northeastern Saskatchewan, part of the main line of the C. P. R. from around Maple Creek west to Medicine Hat and Southern Alberta.

Reports as to flax indicate a condition that is fair, on the whole, but would not suggest any greater areas than estimated, namely, about 750,000 acres for the three provinces.

London, Ont., July 7.—The dreaded army worm has made its appearance in several district, and has already caused losses of many thousands to onions, oats and other products. The onion growers will fight the pest with paris green and molasses.

PROMINENT AVIATOR KILLED IN LOOPING

Saumur, France, July 7.—Georges Le-Gagneux, one of the best known aviators, was killed yesterday while attempting a double loop in the air. He had completed the second loop when the propeller broke as the aviator was finishing a glide on the wing, and the machine plunged into the river Loire.

HON. GEO. CLARE, M. P., ILL.

Ottawa, July 7.—Word was received to-day of the serious illness of Hon. George Clare, M. P. for South Waterloo. He is to be taken to Battle Creek, Michigan, for special treatment.

MISSING MEN RETURN.

Oak Point, Man., July 7.—J. J. Millidge and John Hines, the two well known Brandon men who went adrift in a small boat on Lake Manitoba Sunday, arrived here this morning safely.

AGED SIXTY GOES TO CLIMB MT. M'KINLEY

If It Were in Europe They Would Run Over It Daily, He Says

Seward, Alaska, July 7.—"If we had Mount McKinley in Europe we'd be running over it every day," said C. Birkhofer, of Munich, Bavaria, member of the national geographic society and the Deutcherland Alpen Verein, who arrived here yesterday on the steamship Northwestern. "It is only because the peak is so inaccessible that it is climbed so seldom."

Mr. Birkhofer, conqueror of a hundred peaks in other countries, is here for the purpose of climbing Mount McKinley. Although more than 60 years old, he is full of energy and believes he can scale the mountain easily. He will take the route used by the Stuck-Karstens expedition last year. He has a complete and expensive outfit of scientific instruments.

He will proceed in a launch up the Shusitna 100 miles and then continue with dog sleds across the Alaska range at Broad Pass to the headwaters of the Nenana. Later he will go into the Kantishna district and try to get the services of either Billy Taylor or Pete Anderson, who were successful in planting the flag on the north peak in 1910, for the final climb.

If he cannot make the climb this fall he will winter in the Alaska range to study geology.

Mr. Birkhofer looks at mountain climbing as a sport. While the Northwestern stopped at Skagway, Mr. Birkhofer made a rapid ascent of Mount Kern, altitude 5,400 feet.

BAPTISTS ARE ASKING FOR MINING INQUIRY

In Convention at Vancouver Okanagan College Endorsed and Call Made for $150,000

Vancouver, B. C., July 7.—At the afternoon session of the Baptist convention yesterday, a resolution was passed endorsing the policy of the management of the Okanagan college and calling on the Baptist congregations of the province to clear off the indebtedness of the institution, approximately $50,000, and to raise $150,000 for endowment purposes.

The committee on resolutions brought in a recommendation asking the Dominion government to appoint a royal commission to inquire into the coal strike and mining conditions on Vancouver Island and another reaffirming the belief that total prohibition was the only solution of the liquor question, but at the same time favoring local option for British Columbia as in the best interests of the province at present. Both resolutions were concurred in, but an effort was made to have the second one altered. It was pointed out that if they asked for prohibition they might get local option, since it was not the habit of governments to grant all that was asked.

Other resolutions endorsed were one commending the work being done by the Baptist churches of Vancouver among the Scandinavians; one setting apart March 15 as a Sunday on which all the Baptist churches will celebrate the 100 years of peace between the United States and Canada; one commending the giving prominence to evangelical work in the Sunday-schools and one approving of the duplex envelope system of giving towards all church and mission funds.

The Zion Baptist church, Prior street, Rev. W. E. de Claybrook, pastor, an African congregation, was admitted to fellowship of the union.

A report on the aged ministers' fund was submitted by Rev. P. C. Parker, and congregations were urged to devote half of their fellowship funds towards it.

In connection with the report of the nominating committee objection was taken on the proposed representation of B. C. to the union. A. B. Stovel, Winnipeg, president of the union, pointed out that the representation was apparently based on a membership of 5,000, while the membership as shown in the year book was only about 3,000.

The chair upheld Mr. Stovel's contention that the representation must be based on the figures in the year book. Mr. Stovel said that he did not think that any objection would be made to the over-representation, but there might be, and the British Columbia Association should have set forth its position in advance. Complaint was made that the union year book omitted many of the congregations, and Mr. Stovel stated that it was the fault of the churches, who should have made returns to the union officers in Winnipeg. In compiling the reports the officials could only use the figures that had been sent in to them. The report was then referred back to the nominating committee for revision.

An address was given by Rev. H. F. Waring on "The Rivals of the Sunday School," and Rev. O. E. Kendall spoke on "The Sunday School That Makes Good."

DOMINION COMMISSION ON COAST IN OCTOBER

Publication to Be Issued at Ottawa Monthly on Conservation of Public Health.

Ottawa, July 7.—The dominions' royal commission will reach Canada about July 22 and after sitting at various places in eastern Canada will go west; reaching Vancouver about October 10.

The work of the commission on conservation for Canada will be extended shortly. To the task of conserving the natural resources of the Dominion will be added the conservation of public health and the education of the general public in matters pertaining to this. On August 1 the first number of a publication dealing with public health, sanitation and similtr subjects will be issued. After that date it will be issued monthly, and copies distributed to all on the mailing list of the commission, as well as all doctors, teachers and others interested in the work. By means of this publication it is intended to carry on a vigorous campaign for the education of the public on this question.

Cured of Piles and Eczema

By Using Three Boxes of Dr. Chase's Ointment.

Mr. Abram Buhr, Herbert, Sask., writes: "I want to say that I was troubled with eczema and piles and suffered greatly from the itching, burning sensations caused by these annoying ailments. I sent for a free sample of Dr. Chase's Ointment, and this did me so much good that I bought three boxes more, and after using same was cured of both eczema and piles."

This is the kind of letters we receive daily from people who have been cured of these distressing skin diseases by the use of Dr. Chase's Ointment. No matter how skeptical you might be, you could not read these letters for many days without concluding that Dr. Chase's Ointment is undoubtedly the most prompt relief and certain cure for these ailments.

If you have doubts send for a free sample box and be convinced. It was by use of a free sample that Mr. Buhr was convinced of the merits of this treatment. For sale at all dealers, or Edmanson, Bates & Co., Limited, Toronto.

MAN'S DEATH FOLLOWS PERSONAL HOSTILITY

Ontario Attorney-General Orders Investigation of Mystery at South Porcupine

Toronto, July 7.—Strange rumors concerning the death of James Knowles, son of the Rev. Robert B. Knowles, of Toronto, who died at South Porcupine, June 19, as a result of injuries on the head caused by a blow from a milk bottle at the hands of Emile Lebrie, are beginning to be heard. While the inquest disclosed practically little beyond the fact that Lebrie struck the blow, and alleged it to be a result of a personal altercation with Knowles, it is now stated that there is a much deeper significance to the affair.

Rumor has it that two days before Mr. Knowles died he was assaulted by a prominent citizen of South Porcupine and injured in the side and the left eye. There was no mention at the inquest as to the extent of these injuries, and the post-mortem report only dealt with the effect of Lebrie's blow.

Mr. Knowles had aroused great personal hostility against himself in Porcupine on account of his activity in having civil officials unseated for irregularities in office, and was himself appointed solicitor for the township in place of the man who retired. Whether the first assault against him, as well as the latter attack by Lebrie, were the result of this hostile feeling is not disclosed, but the facts are considered of sufficient importance by the attorney-general's department to warrant a special investigation.

TRACED BY FOOTPRINTS ARRESTED FOR MURDER

Eight-Year-Old Girl Found Beaten to Death by Parents on Returning From Dance.

Pocatello, Idaho, July 7.—Finding their eight-year-old daughter missing from her bed on their return from a dance after midnight on Sunday, James T. Henderson and his wife, ranchers at Robin, an isolated hamlet 30 miles south of here, found the child's badly mutilated body in a spring 300 yards from her home.

Alfred Henderson, who is not a relative, was arrested, charged with the crime, and was brought here for safekeeping, because of the high feeling against him at Robin. The child had been assaulted and beaten to death, her skull being crushed with a heavy instrument. Close resemblance between Henderson's footprints and those leading from the house to the spring led to his arrest. Investigation developed that the man had left the dance an hour before the girl's parents. The prisoner was found in bed at his brother's home a mile distant. His clothes were found to be wet and muddy and sprinkled with blood. The prisoner is the son of a former policeman.

DIAMOND MERCHANT IS WANTED FOR SMUGGLING

Half Million Dollars in Stones Taken Into United States From Canada is Charge.

New York, July 7.—Herman J. Dietz, of this city, a diamond merchant, and his son, Charles, were indicted yesterday by a federal grand jury here on eleven counts as participants in an alleged conspiracy to smuggle diamonds into the United States. Diamonds valued at from $300,000 to $500,000 were smuggled from Canada in 1911 and 1912, Assistant United States District Attorney Bigar A. Wood stated. The indictment charges the accused with smuggling stones worth upwards of $100,000 between February 15, 1911, and April 1, 1912. Bench warrants will be issued for their arrest. It is understood that they are now in Europe.

LORD BROOKE DENIES CANADIAN APPOINTMENT

Ottawa, July 7.—"It is only a story. There is absolutely nothing in it," said Lord Brooke, in reply to a question put to him regarding the suggestion that he was to be appointed to the position of inspector-general of the Canadian militia under Colonel Hughes. "I have a job on the headquarters staff in London, and I am going back in a few days," he said.

Questioned with regard to his tour of inspection of the military camps of the maritime provinces, his lordship stated that never before had the camps been so full. All the work had been satisfactory.

CLEMENCY IS DECLINED KRAFCHENCO WILL DIE

Ottawa, July 6.—The order-in-council confirming the decision of the cabinet council that the law shall take its course in the case of John Krafchenko, sentenced to die at Winnipeg on Thursday, July 9, has been sent back from Quebec, where it was signed on Saturday by the Duke of Connaught. This closes the matter in so far as action by the Ottawa authorities is concerned.

$6,000,000 FOR RAILWAY.

Wichita, Kans., July 7.—The Kansas City, Mexico & Orient railway was sold yesterday for $6,000,000 to the reorganization committee representing the bondholders of the company. The bid was made by A. M. Wickwire, of New York city. There were no other bids.

CONFERENCE WANTED SAYS CREWE TO LORDS

Lord Roberts Foresees Destruction of British Army If Sent Against Ulster

London, July 7.—That the House of Lords would pass the second reading of the Home Rule Amending bill in order to amend it in committee was a foregone conclusion, but there was surprise that only "die hards" could be found to vote for Lord Willoughby de Broke's motion for its rejection.

The Marquis of Crewe, in winding up the debate for the government, challenged the opposition to guarantee that there would be no civil war in Ireland, even if the bill was amended to allow the exclusion of Ulster.

Concerning the possibility of a solution by conference, if dropping the amending bill and breaking down the government's policy was to be a preliminary, it would be impossible for the government to accept it, but short of entailing such a sacrifice, the government was most anxious to facilitate a conference.

For himself, he did not hesitate to say that if John Redmond, the Irish Nationalist leader; Sir Edward Carson, the Ulster Unionist leader; William O'Brien and two or three other Irishmen could get together, it would be a better augury for some permanent arrangement than any other kind of a conference.

After the division was taken notices of several amendments were handed in providing for the exclusion from Home Rule of the whole of Ulster.

These amendments, if carried, will make the exclusion of the whole province of Ulster absolute without a referendum or election, and the excluded province will be placed under the jurisdiction of a secretary of state in the imperial government, whose administrative orders would require the sanction of the British parliament.

How was it, asked Lord Roberts, during the debate on the Home Rule bill, that they were faced with a situation in which the army had indicated the possibility of disobedience. The answer was that there was no more a political crisis. They were face to face with a clash of principles, which raised the question far beyond the realm of ordinary politics.

At a comparatively early stage in the struggle he warned the government that any attempt to use the military force for the coercion of Ulster would break and ruin the army. (Opposition cheers.)

His words fell on deaf ears. The country might plunge into civil war or might walk slowly into it, but whichever course they took it remained civil war. They might make the position of the army yet more difficult by graduating the steps so as to give each step the appearance of legality and reason, but those steps would, none the less, lead them into the same abyss later.

It would become manifest that force was to be used for the sole purpose of coercing Ulster. When that moment was reached the disaster to the army which he foresaw would come about.

"I tell your lordships again now, as I told you in February," declared Lord Roberts, "if this demand is renewed the army will be brought to destruction. (Opposition cheers.)

"What is it then the army has indicated its unwillingness to do? The army refused to shoot down men whose only crime consisted of an unconquerable determination to resist forcible exclusion from a country they respect and trust.

"This determination, mark you, is born of intense loyalty and a passionate love of country. Is it to be wondered at if discipline is powerless to make men take the lives of fellowmen, fellow citizens, fellow subjects, under such circumstances as these? Surely no other result could be expected in the face of so appalling, so monstrous a demand.

"I have attempted to put the facts of the situation before you in the plain simple language of a soldier, and to show you why it is morally unjustifiable and practically unfeasible to apply direct coercion to Ulster. (Opposition cheers.)

"Surely, even now, we can take steps to avert such an inexpressible disaster to the army and to the nation. Is it too much to ask of patriotism that men should drop all their party differences and seek a natural solution of this otherwise impossible situation?"

YOUTH OF SEVENTEEN SHOOTS AT POLICEMAN

St. John, N. B., July 7.—Frank O'Leary, a policeman, appointed for special dut, was shot yesterday and now lies at the point of death in the general hospital. Edward J. Mowatt's drug store was entered last night and $200 in cash, including $50 receipts of the branch post office, was taken. O'Leary was looking for burglars and the clues led to J. Bratter, a 17-year-old youth, whom he located in Clarence street. O'Leary placed the youth under arrest. The prisoner admitted the truth of the charge, but told the policeman that he would shoot if placed under arrest, and did so.

DENTISTS CHOSEN FOR CONGRESS AT LONDON

Ottawa, July 7.—Canadian delegates to attend the sixth international dental congress to be held in London next month have been chosen and are as follows: Andrew J. McDonagh, of Toronto, director of dental surgery, representing the province of Ontario; Eudore Dubeau, doctor of dental surgery of the dental faculty of Laval university, Montreal, representing the province of Quebec, and G. F. Bush, of the city of Winnipeg, representing the western provinces of the Dominion.

STALLED AUTOMOBILE STRUCK; GIRL KILLED

Miss Margaret Walker, of London, Ont., Dies From Injuries Received in Accident.

Toronto, July 7.—Under particularly distressing conditions, Miss Ella Margaret Walker, aged 16, daughter of Principal Cameron Walker, of Huron College, London, Ont., was fatally injured yesterday afternoon when an automobile in which she was riding with her father, sister and friends stalled and was struck by an eastbound C. P. R. freight train at the McClellan avenue crossing, North Rosedale. The girl died within two hours after she had been admitted to the general hospital. The other occupants of the car had narrow escapes, but were uninjured.

THIRTEEN COULD SWIM TWO OTHERS DROWNED

Montreal, July 7.—A double drowning occurred last night at Pau Aux Trembles, where O. Roy, of Campbellton, N. B., and Louis Touchette, of Joliette, Que., were the victims. They, in company with thirteen others were in a war canoe belonging to the Club Champetre Canadien, when the canoe capsized. The party of fifteen were thrown into the water. All but the two who lost their lives could swim, and thirteen swam to safety. The two drowned men sank and did not rise again. The bodies have not been recovered.

Crippled With Rheumatism

And Skeptical After Trying Many Medicines—Dr. Chase's Kidney-Liver Pills Cured Him.

When the kidneys fail to purify the blood the poisons left in the system cause pain and suffering, such as backache, lumbago and rheumatism. Read how this skeptic was cured by Dr. Chase's Kidney-Liver Pills.

Mr. F. W. Brown, Kingsbury, Que., writes: "I have been completely cured of backache and lame back by using Dr. Chase's Kidney-Liver Pills I also recommended the pills to a man who was a cripple from rheumatism. He was skeptical, as he said that he had tried nearly everything on earth. Finally he consented to try them, and to his surprise was greatly benefited in the first week, and the pains left his legs until he was so supple he could walk without pain or difficulty. Dr. Chase's Kidney-Liver Pills have worked wonders in this place, and we think there is no medicine like them."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, 5 for $1.00; all dealers, or Edmanson, Bates & Co., Limited, Toronto.

PAINLESS DENTISTRY A REALITY

Hundreds of Victoria People Testify That Dr. Gilbert Extracts, Treats, Fills and Crowns Teeth Absolutely Without Pain

It is hard for Victorians to believe that there is such a thing as painless dentistry. For years they have been paying fabulous prices for work performed by the old style method, and have sat for hours enduring this treatment, therefore it is no wonder that, ever since the opening, Dr. Gilbert's Modern Dental Parlors have been crowded by people eager to have dental work performed painlessly by the latest scientific methods. "Did he hurt you?" "Did he extract your teeth painlessly?" "Did you suffer in having that tooth filled?" are the questions asked of those leaving the dental chair. Invariably the answer is the same—"Dr. Gilbert's work is painless, his methods are very simple and effective and there is absolutely no suffering."

DR. O. C. GILBERT
Expert at Extracting Teeth Painlessly

Dr. Gilbert says: "There is no need for pain in having teeth filled, crowned or treated. By the application of a painless botanical formula to the tissues over the apex of the tooth to be worked upon, I anaesthetise the nerve of that tooth so there is absolutely no feeling, every other part of the body remaining normal. While the tooth is thus numbed, I remove every particle of decay and firmly anchor my fillings so that they cannot come out, a feat impossible by the old methods, but insuring a life-long success for my work. I issue you a written guarantee, insuring you a pleasing and lasting result on each and every piece of work, not only honored in Victoria but by Drs. Hanna and Anderson, managers of the Vancouver parlors, as well as in every city where Dr. Gilbert has an office. I am located at 1304 Government street, corner of Yates, where I make examinations free, and furnish you a complete estimate of the cost of the work you actually need without fee or obligation. My office is open every day from 9 a. m. to 6 p. m., Saturday afternoons and Saturday evenings. Special appointments can be made by phoning my office, 3604, or my residence, Empress Hotel."

DR. W. M. HANNA
Specialist in Painless Filling and Treating

DR. F. W. ANDERSON
Specialist in Crown and Bridge Work Applied Painlessly

MUSSULMAN INSURGENTS TAKE IMPORTANT TOWN

Durazzo, Albania, July 7.—It was reported here to-day that the Mussulman insurgents in southern Albania, who are fighting against the government of Prince William of Wied, had captured the important town of Koritza. The troops of the garrison, which included some Dutch and Austrian officers of the gendarmes, were taken prisoners after they had offered a stout resistance.

C. N. R. WORKMAN KILLED.

Lytton, B. C., July 7.—Another fatality occurred in connection with the Thompson section survey party of the Canadian Northern Railway company near Lytton yesterday, when John Middleton fell from a ledge of rock a distance of seventy feet to the Canadian Northern railway track below, sustaining a fractured skull and other severe injuries from which he died last night.

NEW ZEALANDERS NOT READY FOR OWN NAVY

Defence Problem Is Not Yet Surmounted by Small Southern Dominion.

Auckland, N. Z., July 7.—Dr. McNab, ex-minister of lands, New Zealand, stated in an interview on the question of the creation of a navy for the dominion that he believed the government had no intention of creating a New Zealand navy as the feeling of the people was against it. He believed the dominion would revert to Sir Joseph Ward's original policy of contributing to the upkeep of the imperial navy.

As to joining Australia in its navy scheme, he thought New Zealanders would not care to do so owing to the way in which the cost of the Commonwealth's navy was mounting up. Also, the control of the navy would really be in Australia's hands, and as far away from New Zealand as it is now.

NORTH PACIFIC FISH WANTED IN AUSTRALIA

Sydney, N. S. W., July 7.—Hugh Watson, of Nanaimo, B. C., who is on a visit here, has been interviewed on the importance of the Pacific fisheries of Canada. He was strongly of the opinion that North Pacific fish would find a ready market if imported into Australia.

No Trouble to Keep Skin Free From Hairs

(The Modern Beauty.)

There is no need for any woman to countenance superfluous hairs, because with a paste made by mixing some powdered delatone with water it is easy to get rid of them. The paste is applied for 2 or 3 minutes, then rubbed off and the skin washed. This treatment will rid the skin of hair without leaving a blemish, but care should be taken to see that you get real delatone.

SHOULD GET A MOVE ON.

The case of the East Indians on the Komagata Maru is again in the hands of the immigration officers, who must proceed with their inquiry into the qualifications of the applicants for admission and deport those who do not meet the requirements of the immigration law.

They should carry out their task with the quickest possible dispatch. The sanitary conditions on the ship are becoming intolerable from all accounts, and should an epidemic break out the situation will be further complicated. Besides, it is in the interests of the Indians themselves that their fate should be decided without any unnecessary delay. The vessel has been at Vancouver for six weeks and we cannot see why it should take more than that time to decide upon the various applications. It is very desirable that the Komagata Maru and her three hundred odd problems should be out of the way before the Christian Michelsen and her four hundred more reach port.

'PRENTICE HANDS BRING DISASTER.

The Hon. Wm. James Roche, Canadian Minister of the Interior, must have read the speech of Rudyard Kipling delivered in Victoria, in which that distinguished litterateur advised the government of Canada to "pump" immigrants into the country. Unfortunately, the minister pumped not wisely but too well. He did not use discrimination in his operations. His predecessors pumped in the right kind of material, settling it on the farming lands of the prairies, and the natural and anticipated results followed. Production increased rapidly and Canada enjoyed an unexampled period of prosperity. British Columbia obtained her reasonable share of the resultant business buoyancy. Canada was heralded to the world as the land of promise and the eyes of the people in many lands were fixed upon her as the spot in which there were unusual opportunities for all who were anxious to improve their position in life. Now all is changed. The Hon. Dr. Roche finds that in consequence of his indiscreet zeal the cities of Canada are overcrowded with laborers, and he says he is going to round them up and compel the transportation companies who brought them here to carry them back to the places from whence they came. That will be somewhat of a task, but probably the Doctor can accomplish it. But that is not important. The vital fact is that thus Canada is being advertised in the most effective way to all the world as a place to keep away from. It is heralded no longer as a land of opportunity but a country of disappointed hopes. Newspapers in all parts of the world will comment upon the circumstances. Some of them are doing that already. A pretty mess the government of Sir Robert Borden has made of everything to which it has put its hand since it attained power in the year 1911, and the people were told that if prosperity were to continue Laurier must be turned out and Borden put in!

PREVENTING THE LAW'S DELAY.

Parliament's object in providing that no court should have any authority to review or quash a decision of a properly constituted board of inquiry was to facilitate the enforcement of the immigration law. It was apparent that without such a stipulation the regulations would be challenged continually in the courts, not only by immigrants from Asia but by those from the United States and Europe.

Immigrants from the British Isles, as well as from elsewhere, are rejected by the immigration authorities for various causes given under the authority of the act every time a trans-Atlantic liner reaches Halifax or Quebec. They do not demand admission because they are British subjects, nor do they waste any time in futile expeditions to the courts. But let it be established once that the decision of the immigration board could be reviewed or quashed in the courts, and the law passed by the Canadian parliament would be dancing around in the legal melting pot year in and year out. It is not an unusual thing for parliaments and legislatures to declare that there shall be no appeal to the courts from the findings of special boards or commissions created by them.

STOP IT.

A few days ago, during business hours, two wagons loaded with four tons of dynamite passed placidly through the town on their way to the E. and N. railway station. A collision with a street car or an unchecked automobile might have converted the heart of the city into ruins and destroyed many lives.

Chief Davis in reporting the incident to the council yesterday pointed out that under the existing regulations the city has no power to restrict the conveyance of explosives through the streets. In that case the sooner the regulations are amended to provide the necessary authority the better it will be for the safety of the community. It may be contended in some quarters that there is no danger, that a building could fall upon the lead and nothing would happen, but an explosive, like lightning, has eccentric habits and does not herald its destructive vagaries with formal notification. Loads of this kind should be hauled only on certain isolated thoroughfares in regulated hours.

A REMARKABLE SITUATION.

Viscount Haldane, Lord Chancellor, recently said that the arming and drilling of Ulstermen and Nationalists were grossly illegal. The world naturally asks the question: Why has it been permitted? Had the authorities intervened sternly in the first instance Ireland would not now be an armed camp. Having permitted Sir Edward Carson and his friends to organize an army they cannot now put down similar activities on the part of the Nationalists without suppressing those who began the dangerous game.

Lord Roberts declares that the army would not serve in the case of a rebellion in Ulster. This is strange doctrine from a soldier of his standing and experience. If it were true, then we might take it for granted that the army would not serve against any organized revolt in the United Kingdom which happened to enlist the sympathies of the political party with which the aged field marshal was affiliated.

It is to be hoped the army will not have occasion to operate against the men of Ulster, but if Sir Edward Carson unfurls the banner of revolt against the throne, seizes His Majesty's supply depots, customs and excise stations, it will be the duty of the government to take drastic steps to assert its authority, and it will be the duty of the army to obey orders. Would Lord Roberts raise such fine distinctions if the Nationalists were to rise in revolt or if the railway workers were to threaten by force the majesty of the law? He did not object when soldiers were dispatched to quell a threatened riot in Yorkshire not long ago.

THE BOMB THROWERS.

A bomb exploded in a New York tenement house tenanted by the I. W. W. on Saturday, killing one woman and three men. The police suspect that the agent of destruction had been devised for use against John D. Rockefeller, because the scene of the explosion was the headquarters of Emma Goldman, Alexander Berkman and other notorious anarchists, whose attempt to make a demonstration on the outskirts of the multimillionaire's estate the other day proved a ludicrous failure.

It was about two weeks ago that the demonstrators journeyed to Tarrytown, and placing a soapbox on the borders of the Rockefeller property, began their familiar tirades. Now, we do not suppose the people of Tarrytown entertain a superabundance of affection for the Rockefeller family, but between the oil dynasty and the crew of wild-eyed agitators who had come to disturb the serenity of their little community, they had no difficulty in making a choice. So they collected all the antediluvian eggs, ancient vegetables and other highly charged weapons and hurled them with unerring aim at the orators of the day.

None could stand that fragrant fusilade for more than a few minutes. The first, second and third speakers soon lost their identities. In the case of Berkman the ammunition was varied with a few stones, for he is known as an anarchist of the dangerous type, having served a term of imprisonment for endeavoring to blow up Frick, the steel magnate. Finally the demonstrators took to their heels, finding safety in the arms of the police, whom they forever are assailing with purple epithets. According to the theory of the police they and their friends were preparing for a more dangerous campaign on Saturday when one of their favorite weapons exploded.

The people of Tarrytown in their reception of the Berkman-Goldman gang expressed, we think, the attitude of the country generally towards this class of agitating parasites. The public in the mass have no sympathy for any movement which has violence for its chief argument. They draw no fine distinctions between the bomb-throwing fanatic who acts as the tool of an organized conspiracy and the thug who slays his victim for his watch in a dark alley.

SHIPBUILDERS' LIMITATIONS.

In twenty years the size of ocean steamships has grown from ten thousand to nearly sixty thousand tons. Now they say the limit has been reached. Authorities claim the case of the Vaterland has settled it. The huge craft has made trouble entering and leaving New York harbor, one facetious newspaper remarking that everybody was glad the last time she left the river that she did not take it with her, so thoroughly did she sweep the channel when heading for the open sea. But we are not sure that it is wise to generalize from the case of this single ship. The Aquitania is not so much smaller than the Vaterland that the difference can be noticed by an eye accustomed to accurate measurements, and she had no difficulty either in the Mersey or in the northern branch of the Hudson river. So that there may be other factors than mere size to take into consideration when it comes to a question of handling such huge craft. If the big boats pay good interest on the money invested in them, rest assured that still bigger ships will be built. Profit is the determining factor. Only a few feet separate the largest ships of the day from the thousand-foot liner, and it would be a rash thing to say that the final dimension may not be attained within the life of the present generation. Still there must be a limit to the size of steamships, and experience speedily will determine whether that limit has been reached in the ships now afloat. It also is said that in another branch of the shipbuilder's art the limit has been reached. That is in the militant department. Sir Percy Scott holds dreadnoughts obsolete, and the circumstance that the orthodox on the admiralty board hold him in derision does not prove beyond peradventure that Sir Percy does not know that he is talking about. Revolutions have taken place many times in the history of the world despite the fact that there always has been an element of humanity impervious to new ideas.

The commission on the high cost of living which recently, hurriedly and secretly visited us, appears to have discovered something after all. It is back in Ottawa and will not talk, but hints that it found evidence while here that the price of certain commodities is enhanced by combines. What an alert commission it must be to find that out! But that is not all. It is going to say something about the matter in its report, which it will proceed leisurely to prepare and may present to the government before the next session of parliament or after. In the meantime let us patiently submit to extortion, which might be removed by the simple expedient of abolishing the duties on the commodities controlled by the "interests," and permitting their free importation, thus driving the combines out of the "corner" they have created. The Borden government cannot be convinced that there is more than one thing for it to do, that is "to leave well enough alone." It was elected to office by the influence and money of combinations, and the combinations must be accorded the opportunity to recoup themselves by unjust, unreasonable and vexatious exactions from the public.

\+ \+ \+

Although the authorities would have us believe that it was the sternness of their demeanor and accent that cowed the haughty spirit of the Hindus who had voluntarily immured themselves on a small boat and spent three days and three nights, more or less, in exposure on the bosom of Burrard Inlet, we may be accounted among the sceptical. We think it was exposure and inconvenience that subdued the doughty easterners. They were glad to get back to the Komagata, with her "native" smells and highly-seasoned atmosphere. Should the unwelcome visitors throw up their hands now and admit that we hold all the trumps, we shall be sorry, in a way, because the Komagata with her dusky, indomitable and determined contingent of pilgrims, has provided some color and incident, something truly eastern and out of the ordinary, in our dreamy summer days and nights.

\+ \+ \+

The announcement of the death of Mr. W. L. Challoner, published in the Times last evening, was read by the many friends of the deceased with regret deep and sincere. Mr. Challoner was one of the best known and most successful of the business men of the younger generation in Victoria. He was highly esteemed and respected by all who enjoyed the privilege of his friendship. While he had not been in good health for some years, few of us anticipated that his condition was so serious nor that the end of his life's journey was so near. The sympathy of the community will be extended in unbounded measure to Mrs. Challoner and two children in their bereavement.

\+ \+ \+

One hardly would expect it, but the announcement of Joe Martin's retirement from Imperial politics and the prospect of his advent in British Columbia politics has been received with marked favor by the friends of the McBride government, who evidently hope that when Joe's foot once more treads his favorite heath he will proceed to create a diversion that will react favorably to the existing regime. Well, we shall see, but surely nothing less than a psychological cyclone can re-establish the McBride machine in the confidence and esteem of a long-deluded people.

\+ \+ \+

There has been another "general" election in Mexico, and of course Senor Huerta and the junta behind him have been confirmed in their courses and places. The Senor loves his little joke and we cannot blame him for enjoying it while he has the opportunity.

USELESS AND USEFUL MANUFACTURES.

Toronto Star.

If you grew ten million dollars' worth of food, or make ten million dollars' worth of furniture or clothing, or build ten million dollars' worth of houses, there are a hundred chances to one that the food will be eaten, the clothing worn, the furniture used, and the houses inhabited. Improvements may be made in all these products of industry; but the improved product will not absolutely destroy the old one. But if you put ten million dollars into a battleship, the chances are that the blamed thing will never be used, and that in a few years it will be thrown on the scrap heap.

We do not ignore the argument founded on the necessity of insurance against war. If you do not manufacture these instruments of destruction somebody else will, and you and your useful products will be at their mercy. Still, you have the satisfaction of knowing that your food, clothing, houses, furniture, railways, schools, benefit somebody.

And surely, in the long run, the commonsense of mankind will prevail, and soldiers and fighting machines will be used only to protect honest workers against thugs and pirates.

\+ \+ \+

UNFED FARMS.

Philadelphia Record.

Ever since the first fringe of settlers was established on the Atlantic coast of the United States there has been a gradual and natural movement westward. As the lands were occupied and gradually impoverished of their original fertility by careless or improvident farming new lands were acquired. Land was cheap, and the westward movement was accelerated as population increased by improved means of transportation enabling the product of the land to be profitably marketed. Now that the process of occupation and tillage of new lands has gone so far that we are nearing the limit of arable opportunity and population has overtaken our capacity for self-supply of foodstuffs we are beginning to realize the mistake made in haphazard undercultivation of the soil and look about for remedy.

There is very little dispute as to the means of repair. The farmers must be educated so that they may know their farms and get more adequate returns for the labor of husbandry.

\+ \+ \+

THE RACE STILL SOUND.

Philadelphia Record.

The human race is a good race to belong to. It has plenty of vices, and many of them are hard to be patient with. But it has magnificent virtues. On a steamer that has just arrived in port the mate went down into a gas-filled hold and was suffocated. One after another five men went down, each to save the men who went before, and each perished, and the rest of the crew would have followed if the captain had not interfered. Every man knew the fate of the mate and heard the body of the next man fall from the ladder as he was overcome, and yet every man on board was ready to face death in the hold.

\+ \+ \+

LABOR AND MONOPOLY.

Ottawa Citizen.

Labor organizations can be rendered unnecessary for the protection of labor only through abolition of monopoly of natural opportunities. If that were done there would be jobs open to all and laborers could get their entire product without organization. As long as monopoly of Nature's resources is allowed to exist laborers will be driven to organize and to do much that is unethical in self-defence. These facts must be borne in mind in judging the labor unions' case.

\+ \+ \+

POOR OLD NOAH.

New York Sun.

It is rather heaping up odium on old Noah to make him responsible for both the apple and the grape. The Chaldean version of the fall of man will be popular, however, in feminist circles, as it seems to free Mother Eve from responsibility for original sin.

Our July sale is now in full swing. During this sale we are selling our LARGE-SIZED

WASHED NUT COAL

at

$5.00 Per Ton

DELIVERED

This sale will last until July 11 only. Would it not be advisable to stock up at the $5.00 rate.

KIRK & CO.

50 Boys' and Girls' Reefer Coats, Reg. Values From $5.75 to $8.50 to Clear Wednesday $2.75

This represents the entire balance of our stock of Reefer Coats for boys and girls. We intend clearing out the whole lot in record time, so have marked them away down out of all reason below regular. Not a coat in the lot marked less than half-price, and many are to go at but one-third their original selling price. There are sizes ranging from 2 to 14 years, and the materials include serges, blanket cloths, scarlet cloth, shepherd's checks, fancy tweeds and worsteds. Some are trimmed with brass buttons, others with fancy buttons, and there are both plain cloth and velvet collars. Only 50 coats in the lot, and as there's sure to be a big rush for them we advise you to be here sharp at 8.30 Wednesday morning.

—Main Floor

Boys' and Youths' Alpaca Coats Clearing Wednesday at 50c

Regular Values to $2.50

A ridiculous price, it's true, but we haven't many of these coats left, and we are determined to clear them all out now while there's a demand for them rather than carry them over to the end of the season and then find we must put them back into stock for another season. So on Wednesday morning sharp at 8.30 out they go at ..... **50¢**

—Main Floor

A Special Offering in Princess Slips at $1.25

A very low price indeed, especially for such a dainty style. They are specially made to wear with the narrow skirts now in vogue. The yoke is of pointed embroidery trimmed with beading and ribbon, also embroidery edging. The skirt had a 12-inch flounce of embroidery, and you can choose from various designs. Sizes 32 to 44. Special at **$1.25**

—First Floor

Summer Dress Goods Marked at Ridiculously Low Prices for Wednesday

Wednesday will be one of the busiest days in this section we have had during this sale, because the following items are bound to create a big rush. Note carefully these extraordinary values:

BLACK SPOT MUSLINS

Regular 20c, 25c and 30c Values—Wednesday, per yard 6¢

Who would be without a few yards of muslin when it can be purchased at this price? Note there are only 500 yards in the lot, so you will have to shop early to secure a length.

WHITE CROSS-BAR MUSLIN

"LAND REGISTRY ACT."

IN THE MATTER of an application for a fresh Certificate of Title to Victoria City Lot 1941.

NOTICE is hereby given of my intention at the expiration of one calendar month from the first publication hereof to issue a fresh Certificate of Title, in lieu of the Certificate of Title issued to Clara Pennock on the 24th day of April, 1902, and numbered 7695 C, which has been lost.

DATED at the Land Registry Office, Victoria, British Columbia, this 27th day of June, 1914.

S. Y. WOOTTON,
Registrar-General of Titles.

NOTICE

We beg to advice our clients and friends that Sturgess & Co., Limited, is being voluntary liquidated for private reasons only and not on account of any financial difficulties, and further that Mr. Sturgess and Mr. G. G. Rylands will continue in business at 313 Sayward Building under the name of F. Sturgess & Co.

F. STURGESS.
G. G. RYLANDS.

NOTICE

In the Matter of the "Creditors Trust Deeds Act and Amending Acts and In the Matter of Press Publishing Company, Limited, Insolvent.

NOTICE is hereby given that the above named Insolvent, Press Publishing Company, Limited, carrying on business at number 4 Sayward Building, in the City of Victoria, British Columbia, has, by deed dated the 26th day of June, 1914, made an assignment of all its real and personal effects that may be seized or sold or attached under execution to me for the general benefit of its creditors, under the "Creditors Trust Deeds Act."

Creditors are notified to meet at my office, Room 38, Board of Trade Building, Victoria, British Columbia, on the 7th day of July, 1914, at three o'clock in the afternoon, for the purpose of receiving a statement of the Insolvent's affairs, for the appointment of inspectors and the giving of directions with reference to the disposal of the estate.

All persons claiming to be entitled to rank on the estate must file their claim, properly verified, with me, on or before the 7th day of July, 1914, after which date I shall proceed to distribute the assets thereof, having regard to those claims only of which I shall then have notice, and shall not be liable for the said assets or any part thereof to any person of whose claim I have not then received notice.

Dated at Victoria, British Columbia, the 25th day of June, 1914.

F. H. KIDD,
Chartered Accountant,
Assignee.

"Animal Sunday."—On Sunday by request of the S.P.C.A., "Animal Sunday" was observed in most of the city churches, a large proportion of the ministers and clergymen referring in their sermons to the subject of gentleness and mercy to dumb pets and wild creatures.

☆ ☆ ☆

Garden Party.—The ladies of the Reformed Episcopal church will hold a garden party in the grounds of Mrs. G. A. McTavish, 912 Heywood avenue, Friday afternoon, July 10. Fancy articles, home-made candy for sale. Tea and ice cream will be served. Clock golf and other games will be an attraction. •

☆ ☆ ☆

Refreshments will be served at the Sidney Flower Show, Saturday, July 11. •

☆ ☆ ☆

Applications for Positions.—The applications for the vacant positions in the city teaching staff are numerous and the city school board will have at Wednesday's meeting considerable work weeding out the list to make appointments.

☆ ☆ ☆

To Aid Jubilee Hospital.—An effort is being made by F. R. Bailey, of Saanichton, to get support for his plan of holding a flower service in the Saanichton hall on some Sunday in the present month, the proceeds and flowers from which would be sent to the Royal Jubilee hospital. In order to further the scheme, Mr. Bailey will be grateful for any help which is volunteered toward this end.

☆ ☆ ☆

May Be Candidate.—Capt. McIntosh has since his return to Victoria been invited by numerous friends to offer himself for the pending vacancy on the city council. While he has not definitely decided what course he will adopt, it is quite possible that he may be in the field when nominations close. The captain polled well at the general election. So far R. B. McMicking and W. M. Wilson are the only candidates definitely announced.

☆ ☆ ☆

Ideal Young Women.—In his Sunday evening sermon at the First Baptist church, Dominion theatre, Rev. J. B. Warnicker preached on "A Young Man's Conception of the Ideal Young Woman," a very large congregation being present. Mr. Warnicker quoted from poetry and literature to show that women had been at a disadvantage in the world for many centuries. In detailing broadly the qualities which men admire in women he cited chiefly inspirational qualities, sincerity, refinement in thought, manners and dress; common-sense, home-making instincts, and reverence and piety. Next Sunday evening Mr. Warnicker will give "Seven Reasons Why Marriage is a Failure."

☆ ☆ ☆

Alpinists Meet.—At a meeting of members of the Victoria Branch of the Alpine club held last Friday at the residence of the chairman, W. W. Foster, M. P. P., it was announced that about ten members of the local branch would be attending the camp which opens in the Upper Yoho valley on July 21, for three weeks. Mr. Foster reported that he had had a letter from A. O. Wheeler, director of the club, who is at present staying at the clubhouse in Banff after sojourn in the Yoho where he has gone over the ground with some of his assistants, and has found the camp site and the possibilities of the district to the climber to be even better than he had anticipated. About 300 Alpinists from all parts of the Dominion, the United States and Europe are expected to join the camp this summer, which will make the event quite one of the biggest in the history of the club.

Perennial Flowers — Hollyhocks, Wallflowers, Delphinium, Pansies, Centerbury Bells, Coreapsi, Shasta Daisy, Oriental Poppy, etc., etc. Sow now for flowering next year. A shipment just in from Sutton & Sons. A. J. Woodward, 615 Fort St. •

☆ ☆ ☆

Good Beer Brings Good Cheer without unwelcome after effects. Try a glass of Humbser brew, 10c a glass at The Kaiserhof. •

☆ ☆ ☆

Supreme Court Chambers.—Mr. Justice Clement will hold supreme court chambers on Thursday forenoon at half past ten o'clock. There will be weekly sittings in chambers during the long vacation, his lordship being the vacation judge for the month of July.

☆ ☆ ☆

Seeks Uncle.—Yesterday Mayor Stewart had a communication from James Landy, of 1664 Clay street, San Francisco, who is making inquiries as to the whereabouts of his uncle, Thomas Landy, who was last heard of eight years ago as living on Vining street, Victoria. Information as to the present whereabouts of the missing man will be welcomed at the city detective office.

☆ ☆ ☆

Thanks of Japanese Consul.—Y. A. Hori, the Japanese consul at Vancouver, has written thanking the city council for the city's share of the welcome to the officers and men of the Japanese training cruisers, Asama and Azuma. The letter was read to the city council last evening. It runs in part: "The officers and the crews have been greatly impressed by the courteous treatment they have received from the municipality and the individual citizens of Victoria, and they will sail home with the most pleasant memory of their stay there, however short it may have been. I have cabled to the Imperial government of the manner in which the officers and men have been entertained."

☆ ☆ ☆

Y. W. C. A. Convention.—The sixth annual convention of the Y. W. C. A. of Canada, which adjourned last Friday, met last week in Muskoka with over two hundred delegates of the association from the towns and cities of the Dominion from Victoria to Fredericton. Among the speakers were Dr. Gilmour, Mr. Sykes, Mr. Hooke, of Toronto; Dr. Norman Macleod, of St. Anne de Bellevue; Mr. Stillwell, of India; Miss Platt, of Turkey; Dr. Murdoch Mackenzie, of China; Mr. Woodsworth, of the Canadian Welfare league; Miss Elizabeth Hughes, representative of the national board of the Y. W. C. A. of the United States, Canon Plumtre and Canon Dyson Hague, of Toronto; Mrs. MacLaren, of Ottawa, and others.

☆ ☆ ☆

Y. W. C. A. Secretary Returns.—Miss Bradshaw, general secretary of the Y. W. C. A., returned on Sunday after a month's holiday spent at Port Townsend, Seattle, Vancouver, Prince Rupert and Stewart. At Vancouver and Seattle she visited the Y. W. C. A.'s, and at the latter place was particularly impressed with the completeness of the new institution, which is one of the most up-to-date that she has ever seen. In addition to the usual rooms there is a day-nursery and hospital ward, an excellently fitted up gymnasium, a roller-skating rink on the roof, and a swimming pool. Many of the rooms have been furnished by friends of the association, and the entire cost of the new building has been cleared by money raised in the campaign for the purpose, liberal subscriptions having been given. Miss Bradshaw resumed her duties at the Y. W. C. A. yesterday morning, finding the place full to the roof with the supplement of teachers who are staying there during the summer course of instruction at the new high school.

☆ ☆ ☆

A Resident in 1892.—Mr. Alfred Wood, of Montreal, vice-president of Semi-Ready, Limited, and who was a resident of Victoria in 1892, passed several days in the city renewing old friendships. Mr. Wood has traveled far since 1892 when he was advertising manager for the Victoria News, the paper established by several leading Conservatives to oppose the Colonist; but which very soon retired from the field. Mr. Wood established the Victoria Printing Co., a job printing business— and subsequently published the Nelson Miner and later became the proprietor of and for several years managed the Ottawa Free Press. Retiring from newspaper business with a little capital and a large experience and knowledge of men and affairs generally, Mr. Wood became identified with industrial enterprises in Montreal. He is now vice-president of Semi-Ready, president of R. J. Tooke, Limited, vice-president of Holland Varnish company, and director in several other Montreal industrial organizations. Mr. Wood has made good.

A GROWING ASSET

The cost of conducting a daily newspaper grows steadily each year.

This is because newspaper readers demand an ever increasing service.

The paper must furnish at once a trustworthy avenue of information, and a source of broad entertainment.

Newspapers, from the standpoint of national advertising, offer a surer means each day of reaching actual buyers because they are growing closer to the home all the time, through this policy of meeting their readers' demands.

INDIAN STABBED EARLY THIS MORNING

Constable Has Terrible Ride With Alleged Assailant Who Appears in Police Court

What bears all the earmarks of a stabbing affray took place early this morning at the Indian reservation at Sluggett's, as a result of which Sherman Lewis, a burly and vigorous half-breed, appeared in the dock of the Saanich police court charged with stabbing Guy Morrison, an Indian, with a clasp knife.

The police believe the affray to have been the result of a prolonged drinking bout in which both men took part, for it is known that Sherman Lewis took a couple of bottles of spirits up to the house of Morrison and there caroused until the small hours. This morning about 5 o'clock Mrs. Morrison went out and found her husband lying prone on the grass with a deep cut in his jaw and a large clasp knife lying by his side. He was not very seriously hurt, but was even then in an intoxicated condition.

A message to the Saanich police brought Constable Dryden out in an automobile, and there immediately ensued a terrible fight between Sherman Lewis and the constable. Lewis made every possible effort to incapacitate the officer, and during the journey back in the car clawed the constable's face, ripped his tunic in several places, and bit him deeply in the leg, causing a severe wound, as a result of which the constable can only walk with a painful limp. The journey back in the car was one long struggle with the prisoner, who is a very powerful man, and who made frantic efforts to escape all the time. In this, however, he was frustrated by the plucky work of the constable, who managed to hold him until the Saanich chief of police and Constable Little appeared on the scene.

Lewis's condition this morning in the police court was such that the magistrate refused to try him, and he was remanded for a day. It was later learned that Morrison is not so much hurt as was at first thought, and his condition this afternoon was much improved.

YOUTH ARRAIGNED ON SERIOUS CHARGE

R. V. Nicholles Charged With Inflicting Grievous Bodily Harm on Cava Singh

Richard V. Nicholles was arraigned in police court this morning and charged with causing grievous bodily harm to an East Indian, Cava Singh, who now lies in the Royal Jubilee hospital in a critical condition. The Saanich prosecutor stated in court that the Hindu's condition was so grave that there were prospects of a more serious charge being preferred against the prisoner, who is only about seventeen years of age.

R. C. Lowe appeared for Nicholles, and after pleading not guilty and obtaining a remand, asked the magistrate to fix bail. Magistrate Jay, however, refused to give bail until he had heard of the exact condition of the man on whom the alleged assault was made, and the prisoner was therefore remanded until this afternoon.

None of the facts of the case were forthcoming in the police court this morning, but it is stated by people who were on the spot at the time that the boy was found by residents of Blenkinsop road and Cedar Hill road just as he had beaten Cava Singh into a state of unconsciousness with two large stones. The stones were produced in court this morning, one of them proving to be a large piece of smooth granite. The prosecutor described the extent of Cava Singh's injuries by remarking that his head was beaten almost to a pulp.

Further information on the alleged assault is that Cava Singh's cries for help attracted the attention of the McMichaels, father and son, who were stacking hay a short distance away. They immediately ran to the place from where the cries appeared to come, and found Cava Singh on his face with Nicholles beating his head with a large stone.

The police patrol was summoned and both the youth and the East Indian were placed in it by Driver Smith and Constable Hall, the injured man being taken to the Jubilee hospital, while Nicholles was conveyed to the police station.

On reaching the station the accused boy stated he had met Cava Singh on Johnson street and they had drunk together, as a result of which Nicholles had become drunk. He failed to remember how they got out into the country, but he remembered going out on a Hillside car to the end of the street car line.

On inquiry this afternoon at the Jubilee hospital it was learned that Cava Singh was resting nicely, though his condition of unconsciousness remained unchanged.

Around the Camp Fire

After the day is past, that is when music is desirable. It is then, of all times, the Columbia proves its worth as a camp pal. There is nothing to equal it, not even a whole brass band and a bevy of the world's greatest singers, because the Columbia brings to you "all the music of all the world."

COLUMBIA

There are many different styles of the Columbia instrument. Each different style has a price of its own, so that there is a Columbia to fit almost every purse and almost every taste. In the Columbia line there are several instruments, whose general design and extreme portability render them exceptionally good camp companions. Go where you will among the best appointed camps in and around Victoria this summer and you will find the Columbia a leading feature. If you haven't a Columbia at your camp, you don't know what you are missing this Summer.

It doesn't require much of an investment; just a few dollars down and a few dollars a month, arranged on any basis that is agreeable to you, and you take the Columbia you choose and use it while you are paying for it.

You Had Better Come in To-day and Pick Your Columbia

SEEK COMPENSATION

Former Sealers Are Heard by Commission in Support of Their Claims.

Further individual claims from members of the crews of sealers are being heard to-day by the Pelagic Sealing Commission. The claims are all small ones, and are based on the amount estimated to have been lost in lay by the crews as a result of the catch of the vessels being restricted by the prohibition of sealing between May and July, and of the use of guns in Behring sea.

The first case heard to-day was that of Antoni Ferreri, or Ferrari, for whom Oscar C. Bass was acting, and a number of claims of whites and Japanese for whom A. J. Patton was acting followed.

Mr. Justice Audette asked Ferrari in Italian if he could speak English, and got the answer "groco," a little. Alfonso Zarelli was sworn as interpreter, but as soon as Mr. Bass began to question his client he answered promptly in very fair English.

Ferrari first shipped on the Aretas, in 1893, leaving her in Japan and sailing from there in 1894 on the Maud S. Two years later he was again on the Aretas. During these and subsequent seasons he was boat-steerer, at wages and lay of "four bits" a skin. For a couple of years, about 1900, he was cook, and in later years boat-steerer on the Teresa, Dora Seward, Libby, Ida Etta, Walter L. Rich and other schooners.

To Frank J. Curran the witness denied that in 1894 the vessel had been at Copper Island, and when informed that the customs house returns showed it had he replied: "I don't believe it." Ferrari was naturalized here in 1895 or 1896 but lost his papers in the fire seven years ago. Becoming crippled with rheumatism he gave up sealing in 1907 and has been since then in the Aged Mens' Home.

After Ferrari had left the box some question arose as to his real name, and he was recalled. Mr. Bass said he had been naturalizd in 1899, but appeared in the records as Antoni Ferreni. He had voted at all elections since.

His lordship observed with a smile that this could hardly be taken as fixing the identity.

The interpreter said the only way to spell the name was Ferreri.

Richard Caines, a native of Newfoundland, detailed his sealing trips from 1891 on. In 1897 he was one of five charterers of the twenty-five-ton schooner Labrador. She did not go out until March 17, and in six weeks caught but 35 skins on the coast owing to bad weather. If she had been allowed to seal from May to July five hundred more skins could have been taken.

To Mr. Curran, Caines admitted that they knew they could not seal between May and June, and that they could not use guns in Behring sea. They did not go to Behring sea because they could not get men to go in such a small boat.

Hatela Taneuchi, who was naturalized on June 22, 1902, served as a boat puller for two or three seasons, and since then has been in the fishing industry out of Steveston. He testified that he and his partner made $100 profit each yearly, after paying for living expenses and clothing for the year.

L. Kichonori was another Japanese boat-puller, naturalized April 20, 1909, who had been sealing for two or three years before that.

Andrew Davison was sealing continuously from 1888 to 1896, when he gave it up for three years, there being so little in it in the latter years. He went out again in 1900, and the second year after, and then gave it up for good. He has been living on his ranch of 109 acres, only five of which are "any account," he says.

Where Are You Going?—To The Kaiserhof where I always enjoy lunch in comfort and find time for a smoke on the way. •

☆ ☆ ☆

Commence Alterations—The city began to-day the alterations of the brick building at the northeast corner of Douglas street and Pandora avenue, owned by the B. C. Electric railway, the land being required in connection with the widening of Pandora avenue.

☆ ☆ ☆

Pathetic Appeal.—A pathetic letter from a mother in Scotland was received by the police this morning, asking for news of her son, James Allen, who came out to the west in 1913. "Since that time," writes the mother, "I have not heard of him and am afraid he must have lost heart at being knocked about from place to place." The missing man is a joiner, 28 years of age, and has a sallow complexion and dark brown hair. He is of medium height and has dark eyes.

☆ ☆ ☆

Hired Vehicles By-law.—A meeting of the committee of the city council to which has been committed the duty of suggesting amendments to the Hired Vehicles by-law was held this morning. It is possible that the committee dealing with applications will be broadened to include five persons instead of three as at present. It is proposed to give power under the new by-law to refuse a license to any applying hackdriver whose moral character is doubtful. A by-law will be introduced on Monday dealing with the matter.

PRESENTATION MADE TO PRINCESS ALICE

Skagway Merchants Give Rustic Flower Box on Occasion of Her First Visit

While the fine C. P. R. steamer Princess Alice was berthed at Skagway on her maiden visit to that port a number of the merchants of the town called upon Capt. John McLeod, master of the vessel, and made a presentation to the ship. The Alice was the finest ship ever to steam into Skagway and they wished to take the opportunity of showing their appreciation of the splendid steamship connection with southern points which the C. P. R. had instituted.

The present given to the Alice was an elaborate flower box, containing a complete bed of pansies in full bloom. The box was rustic and lettered "Alaska." It is a beautiful gift and the pansies are of the finest colors. Capt. McLeod had the flower-box fastened on one of the after-decks just outside the smoking room and it attracted a great deal of attention, and was the source of much admiration from the passengers who came south on the steamer.

An Excellent Entertainment.

One of the finest concerts ever given on a steamer operating in the British Columbia coast trade was held on the evening of July 3 in the spacious saloon of the Princess Alice, just after she departed from Wrangel, Alaska, on her run south from Skagway. The crew of the vessel provided the programme and the passengers on board loudly applauded the numbers. The concert was arranged in aid of the British and Foreign Seamen's Institute and at the collection taken up at the close the sum of $34 was realized.

Capt. C. D. Neroutsos, marine superintendent of the B. C. Coast Service, acted as chairman during the evening, and the programme rendered was as follows:

Cornet Solo—"Peg o' My Heart".... ..... E. Rance
Song—"Killarney"..... T. Stevenson
Song—"Emancipation Day"..G. Atkins
Violin Solo—"Humoreske" .... W. G. Robinson
Song—"Lovely Night"...A. Richardson
Quartette—Selected ....
Messrs. Jordon, Richardson, Rance and Stevenson.
Chairman's Remarks. .....
Cornet Solo—"O Dry Those Tears"
Song—"Ye Banks and Braes"..... ..... T. Stevenson
Violin Solo—"Salut d'Amour" ..... "Berceuse". W. G. Robinson
Song—"Some Rainy Afternoon"....

Carried Many Passengers.

The Alice arrived here last evening and completed her maiden trip to Alaska and also her first of a series of excursions to the Northland. A fine voyage was reported by the officers. The Alice carried a large number of tourists, having about 40 round-trip passengers. Altogether she brought south 134 travelers, picking up quite a number at Prince Rupert.

The Princess Alice leaves on her next trip on Friday night and after it she will make two more cruises to Alaska.

TITAN WILL BE OFF HEAD BY DAYLIGHT

Blue Funnel Liner Completing Long Run From Liverpool To-morrow Morning

In a radiogram flashed from seaward last night, Capt. Read, master of the Blue Funnel liner Titan, announced that he would not drop anchor off William Head until 4 o'clock to-morrow morning. The big steamship is completing her long voyage from Liverpool and other European ports via the Orient. According to a report received yesterday afternoon it was expected that she would reach the quarantine station before sundown this evening. The Titan will tie up at the outer docks at about 7 o'clock to-morrow, however.

The bulky vessel is four days behind her schedule, having failed to pick up any of the lost time during the trans-Pacific run. She is one of the fastest of the older boats and thirteen days is just about the best she can do. The Titan will discharge a small part of her local cargo here to-morrow morning, but will return later in the week to complete unloading. She has several hundred Chinese passengers on board.

Panama Maru Sailing.

Outward bound for the Orient the Osaka Shosen Kaisha liner Panama Maru, Capt. Kanao, is sailing from this port at 5.30 o'clock this afternoon. She has been on the Sound for the past two weeks, and has been loaded with 7,000 tons of general merchandise, including principally lumber, fish, machinery, farming implements, automobiles, motorcycles and sewing machines. At this port a small shipment of freight will be placed aboard and five Japanese passengers will embark.

On Thursday morning the steamship Seattle Maru, Capt. Saito, of the Osaka fleet, will arrive from the Orient. The master of the vessel sent another wireless message to Victoria last night and confirmed the report received earlier in the week that he would be in on time.

At 8 o'clock to-morrow morning the Blue Funnel liner Ixion, Capt. Reipenhausen, sails for the Far East and Liverpool laden with a full cargo of general merchandise. The Makura, Capt. Phillips, bound for Australia, leaves to-morrow evening.

MAQUINNA BRINGS IN NATIVE CANNERY MEN

Two Hundred Indians Come From Reservations; Going to Fraser River

With 200 Indians squatting about on her decks, a good list of saloon passengers and a full cargo of 200 tons of clay, the C. P. R. steamer Princess Maquinna, Capt. E. Gillam, returned to Victoria from a trip to Holberg and way ports at 4 o'clock this morning. The popular West Coast vessel had a beautiful trip, the officers stating that the weather during the five days they were away from port was just as nice as it was in Victoria to-day.

The 200 Indians are going to Steveston to work in the canneries. Natives of all ages, from small boys of ten years to men and women of 70 years, are in the party. Early this morning the big crowd gathered on the forward deck. On the main deck below they prepared their breakfast. The women with their gaily-colored shawls and red, yellow or green shirt-waists and dark skirts, some with hats and others without, their hair falling in long braids over their shoulders, sat about on the decks and without exercising much energy reached to the boxes of provisions for whatever they wished.

The Maquinna left here at 10 o'clock this morning for Steveston. The natives will work in the canneries until the fishing season is over and will return to their reservations. The majority of the Indians are from Kyuquot and Clayoquot.

Number of Tourists.

A number of tourists made the round trip on the Princess Maquinna and as the weather was delightful they thoroughly enjoyed themselves. Passenger travel between here and West Coast ports is very good at the present time and on the long trips to Holberg the Maquinna handles quite a number of tourists.

Upon the return of the Maquinna from Steveston she will proceed to Esquimalt to discharge the shipment of clay which she has on board, and which is one of the largest shipments to be brought here from Kluquot Sound.

The Princess Maquinna is sailing for Clayoquot on Wednesday night at 11 o'clock.

SHIPPING INTELLIGENCE

July 6.

Portland, Ore.—Arrived: Strs. Yosemite and Maverick, San Francisco; Yucatan, San Diego; Beaver and General Hubbard, San Pedro; Strathclyde, Victoria; J. B. Stetson, Skagway. Sailed: Strs. Northland, San Pedro; J. A. Chanslor, Monterey.

Aberdeen, Wash.—Arrived: Strs. Shasta and G. C. Lindauer, San Francisco.

Seattle, Wash.—Arrived: Strs. President, San Diego via San Francisco; Spokane, Southeastern Alaska. Sailed: Strs. Alameda, Southeastern Alaska; Admiral Evans, Southeastern and Southwestern Alaska; Alki, Southeastern Alaska; Northland, Southeastern Alaska via Bellingham; Musician, San Francisco.

LOADED BARGE SINKS IN SEYMOUR NARROWS

Seattle, July 7.—Caught in the strong tide that swirls through Seymour narrows, the barge Gerard C. Tobey, laden with 1,581 tons of coke and bound from Tacoma to Anyox, B. C., was twice driven on the rocks on Sunday morning. She was floated and hauled off the first time, only to go down in deep water a total wreck when she struck a short time later. At least three men were on board the barge when she struck, but these were not mentioned in the telegram received by James Griffiths, senior member of the firm of Griffiths & Son, who operated the barge, and it is believed they were taken off before the craft sank.

The Tobey left Tacoma Friday in tow of the steamer Amur, which also had the barge Argus in tow. The coke was consigned to the Granby Consolidated Mining, Smelting & Power company, of Granby, B. C.

Sunday morning at 9 o'clock, while passing through Seymour narrows, the tide evidently made the heavily-laden barge unmanageable and she was forced on the rocks. Within two and a half hours she was floated, but shortly before noon she struck again and this time sank in many fathoms.

The Tobey was formerly owned by the Ocean Barge company, and at one time, when she was barque-rigged, was in the cement and general freight-carrying trade between Portland and San Francisco.

FEDERALS SEIZE SCHOONER

San Francisco, Cal., July 7.—A wireless message to Captain Jebsen, of this city, owner of the Mexican schooner Salvador, notified him that the Salvador had been seized by the Federals at Guaymas and that Sheriff Gilbert Almeda was loading her with his own merchandise, supposedly consigned to Salina Cruz, the Pacific terminus of the Tehuantepec railway.

Captain Jebsen interpreted the message as strong evidence that the evacuation of Guaymas, often predicted, cannot be far distant.

EXPECTED TO LEAVE VANCOUVER FOR ORIENT END OF THIS WEEK

S. S. KOMAGATA MARU

KOMAGATA MARU TO RETURN TO ORIENT

Expected to Leave Vancouver at End of This Week; Conference Held

Vancouver, July 7.—Gurdit Singh and his fellow passengers on the Komagata Maru have agreed to drop their fight for entry into Canada and the end of this week is expected to see the Japanese steamer with her East Indian passengers steam out of Burrard Inlet for the Orient.

It is understood that an important conference was held on board the vessel this morning between W. H. D. Ladner, representing the Dominion government as counsel; J. Edward Bird, counsel for the Hindus, and William C. Hopkinson, inspector for the Dominion immigration department. The three men were seen going out to the Komagata Maru about 11 o'clock this morning. They did not return until about 1 o'clock. Not one of the three would give a detailed story of what transpired on the boat, but from information gleaned from each one and from other sources the Times correspondent is able to give a fairly complete account of what transpired on the Komagata Maru this morning.

The judgment of the court of appeal at Victoria yesterday places power in the hands of the immigration authorities, by virtue of supporting it in the Munshi Singh case at least to proceed with courts of inquiry for the Hindus on board the boat, and the immigration department therefore could proceed to order their deportation one by one, under the various orders-in-council.

It is understood that Gurdit Singh and his committee to-day agreed to waive their rights in connection with demanding boards of inquiry and said that the department could issue a deportation order at once. They realized that a board of inquiry for each of the 352 Hindus on the Maru would only keep them here an interminable time, all for no purpose, for go they must, unless they can raise a small fortune to appeal the decision of the appeal court.

JAPANESE CRUISERS ON WAY TO HOME WATERS

Seattle, July 7.—The Japanese cruisers Asama and Azuma, naval training ships, sailed direct for Japan to-day. The warships have been away from home waters for several months. They set out from Japan for the Pacific Coast by way of Honolulu. From the Hawaiian Islands they proceeded to San Pedro, thence to San Francisco and up the coast to Vancouver and Victoria. They have been at Seattle for the past seven days.

NEW YORK ARRIVALS

(Reports by C. A. Solly.)

July 7.

George Washington, North German Lloyd, Bremen.

Moltke, Hamburg-American, Hamburg.

Minnehaha, Atlantic-Transport, London.

Reported.

Vaderland, Hamburg - American, Hamburg.

CYPRUS VISITS VICTORIA

Col. Jackling, of Salt Lake City, who has extensive copper interests in Alaska, reached Victoria on a brief visit yesterday on board his palatial yacht the Cyprus. He has just been on a cruise to the north and called in here with his party on his way to the Sound. The Cyprus is the finest yacht on the Pacific coast.

POSITIONS OF VICTORIA OCEAN-GOING TRADERS

This shipping list, containing the positions of ocean-going ships which make Victoria one of their ports of call, is published weekly.

Osaka Shosen Kaisha.

Panama Maru, at Sound port loading; sails outward, July 7.

Tacoma Maru, sailed from Victoria for Hongkong, June 23.

Seattle Maru, left Yokohama for Victoria, June 24; due July 8.

Canada Maru, arrived Shanghai from Victoria, July 6.

Chicago Maru, arrived Hongkong, June 29; sails for Victoria July 9.

Mexico Maru, arrived Yokohama, July 7; sails for Victoria July 8, due July 23.

Nippon Yusen Kaisha.

Sado Maru, at Sound ports discharging.

Tamba Maru, arrived at Kobe from Victoria, July 7.

Yokohama Maru, left Yokohama for Victoria, July 1, due July 15.

Shidzuoka Maru, arrived Hongkong from Victoria, July 5.

Awa Maru, arrived Moji from Hongkong, July 7.

C. P. R.

Empress of Japan, left Yokohama for Victoria, July 4, due July 16.

Empress of Russia, arrived at Hongkong from Victoria, June 30; sails inward, July 8.

Empress of India, sailed from Victoria for Hongkong, June 25.

Empress of Asia, at Vancouver; sails outward, July 9.

Monteagle, left Hongkong for Victoria, July 4.

Blue Funnel.

Ixion, at Sound ports; sails for Liverpool, July 8.

Talthybius, arrived at Liverpool from Victoria, June 27.

Antilochus, sailed from Victoria for United Kingdom, June 10; at Hongkong.

Cyclops, arrived Singapore from Victoria, June 29.

Teucer, sailed from Liverpool for Victoria, June 20; due here August 29.

Protesilaus, arrived Hongkong from Liverpool, July 3; due to sail July 8.

Titan, sailed from Liverpool for Victoria, April 26; left Yokohama, June 24; due here July 8.

Bellerophon, from Victoria for Liverpool, passed, June 28.

YOKOHAMA MARU LEAVES ORIENT FOR VICTORIA

W. R. Dale, local agent for the Nippon Yusen Yaisha liner, has been advised of the sailing from Yokohama of the steamship Yokohama Maru, Capt. Wada, on July 1. The Japanese steamship is bringing to Victoria 30 Japanese passengers and 333 tons of general cargo. It is expected that the Yokohama will reach this port at noon on July 15.

IROQUOIS SAILING DAILY

From now on until the fall the steamer Iroquois, Capt. Carter, will operate seven days a week from Victoria to Tacoma via Port Townsend and Seattle. Since the service to the City of Destiny was inaugurated in May the Iroquois has been running but six days each week, omitting Sundays, but from now on she will make one trip every day. The increase in tourist travel has influenced the company to take this step.

SPORTING NEWS

WORLD'S CHAMPIONS HERE SATURDAY
CITY LACROSSE LEAGUE FORMED

V. A. C. Team Meets Victoria Twelve at Oak Bay This Week; Interesting Game Expected; Schedule for Local Series.

Victorians will be given a chance to witness the world's amateur lacrosse champions in action on Saturday when the V. A. C. team, holders of the Mann cup, meet the Victoria lacrosse club at Oak Bay. This match, which will be one of the crucial games of the season for the Terminal City club, will start at three o'clock and if Victoria is to remain in the running for the famous silverware it is up to the locals to make a win. Westminster defeated Victoria here on the opening of the season by a single goal, Vancouver will make its first appearance of the season here on Saturday.

A win for the Victoria club will put Westminster ahead in the race for the premier lacrosse honors in the amateur circles and Saturday's match should be a whirlwind from the start.

Three teams entered the senior City league at a meeting held in Dr. Hall's office last night, the Wests, Oak Bays and Sidney being scheduled for home-and-home games for the balance of the year. The opening match will be played on Monday evening at Macaulay Point, when the Wests and Sidney clubs will meet. It is just possible that John Virtue will donate his lacrosse trophy for this series. The following were named as possible referees: Messrs. Moresby, L. Patrick, T. Cusack, R. Dewer, "Boss" Johnson, Art Belfry, Fred White, Fred Roche (Sidney) and Forman.

The complete schedule, the home team being named first: July 13, Wests vs. Sidney; July 18, Sidney vs. Wests; July 22, Oak Bays vs. Wests; July 25, Sidney vs. Oak Bays; July 29, Wests vs. Oak Bays; August 5, Oak Bays vs. Sidney.

On Saturday dates the matches will be played in the afternoon.

As all three clubs claim to have plenty of strength in their ranks, an interesting series is anticipated. According to the recent ruling laid down, all players that have not participated in Mann cup lacrosse in previous seasons or in two matches up to June 15 of this season are eligible.

Mann Cup History.

1910—Donated by Sir Donald Mann and held by the Young Torontos of Toronto. Young Torontos defeated V. A. C. of Vancouver one game, 8 to 6.

1911—V. A. C. of Vancouver defeated Young Torontos. Two-game total, 9-3.

1912—V. A. C. defeated C. N. R. of Winnipeg Two-game total, 47 to 7. V. A. C. defeated St. Catharines. Two-game total, 34 to 1.

1912—V. A. C. defeated Armstrong. Two-game total, 27 to 2. V. A. C. defeated Oak Bays. One game, 12 to 0.

1914—V. A. C. defeated Calgary. Two-game total, 17 to 2.

1914—V. A. C. defeated Brampton. Two-game total, 10-7.

Big Four Standing.

	Won.	Lost.	Goals For.	Against.

Tecumsehs ...	4	4	60	71
Torontos	3	5	81	99
Quebec	1	7	60	94

Yesterday's Results.

Nationals, 16; Toronto, 9.
Tecumsehs, 8; Quebec, 4.

N. L. U.

Shamrocks, 8; Toronto, 5.

Matches scheduled for next Saturday in the two Eastern leagues are as follows:

Big Four.

Torontos at Tecumsehs.
Nationals at Quebec.

N. L. U.

Cornwall at Shamrocks.

REGINA IS AFTER CRICKET TROPHY

Clubs Have Amalgamated for Cup Games at Winnipeg; Local Notes

Winnipeg, July 7.—In view of the fact there is no league and only one club in Regina, surprise is expressed locally at the acceptance of Regina's challenge for the J. Ross Robertson cup, emblematic of the cricket championship of Canada. Last year there were five clubs in the Saskatchewan capital and one league, but these have all disappeared into the team which now makes the challenge.

When the clubs amalgamated Regina sporting writers suggested there might be an ulterior motive, but this was denied. However, on the face of it came the challenge for the cup and people began to see things in a different light.

One of the chief objects of the donor of the trophy is to promote cricket clubs throughout the Dominion and to foster the spirit of amateurism. It is understood objection was raised to the challenge of the Regina team, but was not entertained by the trustees. One clause regulating the cup reads:

"The donor of the cup is anxious that the trophy should be competed for by regular and bona fide clubs only, and hereby expressly excludes from the privilege of competing for the cup any combination of players or clubs, which is in reality merely an amalgamation of players or clubs, for the purpose of challenging."

Following are the cup dates: Regina vs. Winnipeg Wanderers, on the latter's grounds, July 13 and 14. Grace church, Toronto, will play on July 30 and 31 against the winner of the preceding game, while McGill, Montreal, August 27 and 28, will play the survivor.

The Oak Bay B team will be glad to arrange a game away from home for next Saturday. Any club which can arrange a fixture is requested to reply to P. O. box 989, city.

Civic Service cricket eleven won from the Five C's. on Saturday by 15 runs. C. Royal and F. Bossum were high scorers.

Credit victory to Gipe; charge defeat to McHenry. Time—2 hours. Umpire—Wheeler.

ENGLISH TENNIS.

Wimbledon, Eng., July 7.—Norman E. Brookes, of Australia, and Anthony Wilding, New Zealand, yesterday won the all-comers' lawn tennis doubles championship by defeating the English players, H. Roper Barrett and C. Dixon. The score was 6-1, 5-7, 8-6.

Miss E. Ryan, of California, and Miss A. M. Morton captured the all-comers' ladies' doubles lawn tennis championship from the holders, Mrs. Larcombe and Mrs. Hannam, whom they beat by 6-1, 6-3.

REMARKED ON THE SIDE

French Soccer Team Will Tour Canada.

That Victoria soccer enthusiasts will welcome the visit of the French football team this fall goes without saying. For several years a visit from one of the crack English football teams has been talked of, but the hope has never been realized. Now the French team has asked for terms for a visit to the capital, and while the locals cannot offer anything better than a big percentage of the gate, the chances are that the French team will be seen here in four or five months. Con Jones has also promised to bring out the two leading English soccer teams this fall, and with three touring elevens in the country, Association football should receive the greatest kind of an advance.

Greatest Lightweight Battle in Recent Years.

Not since the famous battle at London some years ago when Dick Burge and Kid Lavigne donned the padded mitts were the boxing authorities of both Europe and America so stirred up as by the Ritchie-Welsh bout which was fought to-day at London. The fact that Ritchie had dodged out of a match several times against the champion of the British empire added zest to the affair, despite the rumor that the pair were matched to meet again in California the end of this year. Welsh was held to be the cleverer of the two and he also possessed the cunning of twelve years' experience in the ring. Ritchie had proved that he carried a punch, and while his fights had been few since he landed the championship, victories over Wolgast, Murphy and Leach Cross were proof enough that he was a sure enough champion.

ENGLAND WINNER IN FIRST MATCH

Mavrogordato Defeats Belgian Tennis Star; Old Country Team Criticized

London, July 7.—The first singles match in the preliminary round between England and Belgium in the Davis cup tournament went to England to-day, T. M. Mavrogordato defeating P. De Berman, 6-1, 6-2, 6-1.

J. C. Parke defeated A. G. Watson, of the Belgian team, 6-2, 6-2, 6-3.

The matches between England and Belgium are being decided to-day, to-morrow and Thursday. The English team is composed of J. C. Parke, S. Roper Barrett, A. R. F. Kingscote and T. M. Mavrogordato. The Belgian team consists of H. De Boran (captain), W. H. Duvivier, L. Trasenater and A. G. Watson.

The selection of the English players has been much criticized. Parke, it is pointed out, proved a great disappointment at the Bechenham tryouts, where the tennis papers declare he was distressingly out of form. The judges, however, found it impracticable to leave him out of the team. Roper and his partner at the same meeting were badly beaten in the doubles. Kingscote, whose style was very graceful, lacked accuracy and strength, while Mavrogordato did not distinguish himself. Many of the leading critics expressed disappointment because F. G. Lowe, who brilliantly defeated Norman E. Brookes, of Australia, did not get a place on the team.

In case the English team should win from Belgium it will meet the French team at Wimbledon on July 11, 13 and 14. The doubles will be played to-morrow.

Splendid tennis featured yesterday's match in the handicap tournament which is being played on the Victoria Lawn Tennis club's courts. Captain Foulkes won from President Dickson, and in the mixed doubles the scratch pair, Mr. Dickson and Miss Jones were beaten by Mr. MacLachlan and Miss Rickaby in straight sets. R. Archibald, last year's handicap winner, lost to V. C. Martin in an extra set match. The complete results:

Men's Singles.

Harrison, —15.4, beat MacLachlan, plus 15, 6-2, 6-0; Capt. Foulkes, —30.3, beat Dickson, plus ½15, 2-6, 6-3, 3-0 set; D. M. Grant, —15.3, beat A. H. McCallum, —30, 6-1, 917; Beatty, —30, beat E. L. Casey, —15, 6-2, 6-2; V. C. Martin, —15.3, beat R. Archibald, —15, 9-7, 4-6, 7-5; Harold Hudson, —15, beat L. Plumley, —½15, 7-5, 6-8, 6-3.

Ladies' Doubles.

Mrs. Cane and Miss McDermott, —30, beat Miss Pegg and Miss Hudson, scr., 6-2, 6-2.

Men's Double.

Galliher and Keefer, scr., beat A. Martin and H. Pooley, —15, 6-3, 6-4.

Mixed Doubles.

H. Hudson and Mrs. Robertson, —½15, beat Mr. and Mrs. Leeming, —15.3, 6-0, 6-1; Wheatley and Miss MacDermott, —30.3; beat E. McCallum and Miss Lawson, 2-6, 6-4, 6-2; MacLachlan and Mrs. Rickaby, —15, beat Dickson and Miss Jones, scr., 6-4, 6-4; J. G. Brown and Miss Bradford, plus ½15, beat A. H. McCallum and Miss Pegg, —30, 6-2, 6-3.

Spokane, Wash., July 7.—Joseph C. Tyler, of Spokane, successfully defended his title as tennis champion of the Inland Empire yesterday when he defeated the challenger, Phil Brain, in the challenge round of the Inland Emipre tennis tournament. The score was 6-3, 6-2, 5-7, 1-6, 6-3.

The men's doubles was won by Seth Richards and Joe Bailey, of Spokane; the ladies' singles by Miss Katherine Fix and Mrs. D. McIntyre, of St. John. The mixed doubles went to Mrs. J. D. Alexander, of Spokane, and Joseph C. Tyler.

Earlier in the day Brain defeated Clifford Williams in the finals of the men's singles 6-4, 7-5, 6-4, 6-2. Miss Fix defeated Mrs. McIntyre in winning the ladies' singles 6-1, 6-4. In winning the ladies' doubles Miss Fix and Mrs. McIntyre defeated Mrs. Rex Stafford, of Seattle, and Miss Marie Kettenbach, of Lewiston, 6-3, 6-4.

PORTLAND LEADS THE COAST TEAM BATTING

Two more Portland players pumped into the .300 class as a result of their work against Los Angeles last week. Gus Fisher and Walter Doane are now in the select circle, giving Portland five regulars hitting over .300. Dave Bancroft is only two points below this mark, hitting at .298.

Kores and Lober are just under the dividing line, as they are hitting .296 and .295, respectively, while Rodgers is the only one of the regulars farther down, with a record of .271.

Bill Rodgers still leads in base stealing, with 27 to his credit, while Young, of Sacramento, is the runner-up, with 29. Carlisle is the leading run-getter, having crossed the plate 56 times. Young is pursuing him closely for first honors in this department, having scored 55 times.

Martinoni and Rieger are still the leading pitchers, the former having won four games and lost one, while Rieger has eight victories and two defeats so far this season. Higginbotham has the next best record among the Portland flingers with 12 victories and nine defeats.

Phoenix Beer, $1.50 per doz. qts.

M'HENRY BATTED OUT OF THE BOX

Giants Enjoyed Great Hitting Session; Score Yesterday 10-7

Seattle, June 7.—After apparently having the game tucked away with a three-run lead in the fifth, McHenry was batted out of the box by Seattle yesterday afternoon, the league-leaders taking the first of the series at 10 to 7 in a free hitting contest. Seattle rolled up no less than seventeen hits off the best efforts of McHenry and Smith, while Victoria aided in the merry run-getting with five errors that put the game on ice for the Sound city aggregation. Victoria made a fine effort in the eighth to pull down the lead, scoring four runs and driving Gipe from the box. Kelly, however, who succeeded him on the mound, stopped the run-making.

As on Sunday, Delmas' choice of a relief pitcher did not deliver the goods and Smith had little to deceive the leaders with. Seattle chalked up a lot of triples, doubles and singles and once the team started hitting it was never headed. The loss of the first game of the series gives Seattle that much to work on, but the Bees look for at least an even break against Dugdale's club. Steele and Driscoll were chosen to work the next two games. Both of these twirlers won their last starts against Seattle.

Wilhoit and Lamb led the Victoria attack with three hits apiece, but Seattle was infected with a like batting spirit and every man on the club took a healthy swing at the ball. Seattle's grand fielding cut off a number of Victoria runs, Gipe being given sensational support by his outfield.

Vancouver, July 7.—Portland was helpless before Hunt yesterday, but loose fielding by the locals enabled the visitors to make it close, Vancouver finally sending the winning run over in the seventh.

Score—	R.	H.	E.
Vancouver	4	9	4
Portland	3	3	4

Batteries—Hunt and Cheek; Eastley and Murray.

Spokane, Wash., July 7.—Hits in the pinches gave Spokane yesterday's game from Tacoma 6-4. The visitors started a batting rally in the ninth, but fell two short of tying the score.

Score—	R.	H.	E.
Tacoma	4	13	0
Spokane	6	12	4

Batteries—Baker and Brottem; Coveleskie and Shea.

SCHEDULE FOR THE PLAYGROUND TEAMS

Nearly one thousand boys and girls enjoyed the use of the Central Park playgrounds during the past week, the figures being boys, 510; girls, 430. For the seven weeks of the supervision schedule so far this summer, the total number of boys and girls on the playgrounds amounts up to 6,885, innumerable ball games and practices having been held on the grounds during that time. The ball schedule for the balance of the Playgrounds League is as follows:

July 8—Morning: George Jay vs. Athletics. Afternoon: Athletics vs. Fernwood.

July 10—Morning: Athletics vs. Geo. Jay. Afternoon: Geo. Jay vs. Fernwood.

July 13—Morning: Fernwood vs. Athletics. Afternoon: Rectors vs. Outlaws.

CHILDREN'S DAY.

Chicago, July 7.—President Gilmore, of the Federal league, to-day set July 14 as a day on which children in orphan asylums will be guests of the league at the cities in which its teams are playing.

FLANAGAN DENIES FIGHT WAS "FIXED"

Toronto Man Says Johnson Was in Perfect Trim for Moran Bout

Toronto, July 7.—Tom Flanagan, who trained Jack Johnson for his fight with Jim Jeffries at Reno and who was in the champion's corner in his recent fight with Moran in Paris, comments on the fight to-day as follows: "The big champion was as fast as lightning on his feet. He lifted that terrible uppercut of his with the force of a piledriver. He was not as good as ever, but all he needed was two more weeks' work. That would have made Johnson as good a man as he ever was in his life. That is how close he was to being perfect.

"Why didn't Johnson put Moran out? Well, the Pittsburger was in as perfect condition as any man could be. A big powerful man trained to the second, all bones and muscle. He took a terrible beating and stood up under it though he was staggering and groggy a dozen times. There was no arrangement to make the fight last twenty rounds. Johnson told me the night before to wire home that the fight would not go more than twelve rounds. It went twenty, but it was because Moran was as tough as hickory.

"As to the interview spread broadcast over the country that the fight was fixed and that I was a party to it, all I have to say that is a lie pure and simple."

JUNIOR BALL LEAGUE FINAL THIS EVENING

With Jack Curtis pitching good ball and his team mates fielding well behind him, the White Sox won a fast game from the City Messengers, 11-8. Milne, on the slab for the Messengers, pitched excellent ball, but the outfield made several costly errors. This evening the White Sox and Beacon Hill clash at the Central Park at 6.15 in a game which will practically decide the championship should the Hills win. Should the White Sox nine win they will be tied for the leadership.

CARPENTIER AND CLABBY.

Sydney, N. S. W., July 7.—Georges Carpentier, middleweight champion of France, has been cabled an offer of $20,000 to meet Jimmy Clabby, of Hammond, Ind., claimant of the middleweight championship of the world. The offer was made by promoters of the stadium here.

Clabby's latest victory was on July 4, when he won from Eddie McGoorty, of Oshkosh, Wis., on a foul in the eighth of a scheduled twenty-round fight.

RACE POSTPONED.

Newport, R. I., July 7.—Stormy weather caused a postponement to-day of the first of the Newport races for the America's cup yacht Resolute, Vanitie and Defiance. The race will be sailed to-morrow under the auspices of the Eastern Yacht club.

LEADING TWIRLERS

Victoria does not show up very well in the twirling averages of the Northwestern league. Gipe, Doty and Coveleskie are the leading mound artists, with Bobby Steel showing the way to the Victoria hurlers:

LOZIER

Look Closer and You Will Discern Lozier Superiority

All cars are good—when new.
All cars look well—when new.
All cars are silent—when new.

Lozier cars differ from others in that they retain their goodness, their beauty and their silence after long years of the most exacting service.

If we were asked to say what we consider the fundamental difference between Loziers and other cars we would say it is that quality inherent in all Lozier cars—that makes them stay good.

After five years—ten years, and there are hundreds of Loziers ten years old in service—a Lozier still retains its power, its sweetness and its beauty.

For a Lozier, however old, is never out of style. You have remarked that yourself many times.

It has been the Lozier ambition from the first to build the kind of cars that stay good—not merely cars that would sell.

Lozier success — the present predominance of Lozier cars in their price classes — is proof that that far sighted policy has made good.

Look below the surface. Look beyond the paint. Look into the leather and behind it. Look inside even more closely than to the superficial features of the car.

Then you will discover those details of design, of materials, of workmanship and of finish that make Loziers superior to other cars in Stay Good Qualities.

Phone and a demonstrator will be sent—to suit your convenience.

Lowest	52
Average	58

Bright sunshine, 13 hours 48 minutes.
General state of weather, fine.

HUMAN PROCESSION

Prince Wilhelm Eitel-Friedrich, second son of Emperor Wilhelm II., has often been described as the ablest and most popular of the German war lord's warlike brood. "Eitel Fritz," as he is called, is much more diplomatic and less bellicose than his elder brother, although he has won high praise from his superior officers in his career as a soldier. Eitel will be 31 years old to-day, having been born July 7, 1883. He is the junior of the crown prince by one year, two months and a day, and just one year and one week older than the Kaiser's third son, Prince Adalbert.

From his boyhood Eitel Fritz has been the popular hero of the German people and the idol of the soldiers. To his chagrin, the crown prince was utterly eclipsed by his brother, and it has often been rumored that the feeling of the elder brother for the younger was not of the most fraternal kind. Perhaps one reason for Eitel's supremacy in the affections of the people is his size. The German like bulk and bigness, and Eitel is the tallest and broadest in stature of the six sons of the kaiser.

A few years ago, when the Hungarians were on the verge of a revolt against Austria, Eitel was said to be the popular and official choice for the throne of Hungary. That Eitel will yet wear a crown is not beyond the range of possibility.

Prince Eitel married, in his twenty-third year, the Princess Sophie Charlotte, daughter of Grand Duke Friedrick August of Oldenburg. Unlike the crown princess, who is very fond of society and a stickler for royal etiquette, Princess Eitel dislikes city life and society, and is very democratic in her tastes. Gardening is her favorite occupation, and she spends much time in charitable work. She is "Auntie" to several hundred youngsters in an orphan asylum located near the country villa of Prince Eitel at Potsdam.

The kaiser's second son is a carpenter by trade, and has been fitted to earn an honest living in case the social democrats should succeed in overturning the throne. For centuries Prussian royalty has had a rule that its male members must learn a trade. The crown prince and Prince Eitel chose to become carpenters, and the building art has been mastered by all the remaining sons of the kaiser except Prince Joachim, the youngest of the "Hohenzollern boys," who was instructed in the trade of a blacksmith.

Four of the kaiser's sons, Crown Prince Wilhelm, Prince Eitel, Prince Oscar and Prince Joachim, are soldiers and have served a thorough apprenticeship in military science. Prince Adalbert, who will pass his thirtieth birthday a week from to-day, July 14, has chosen a life on the bounding sea as an officer in the navy of the fatherland. Dr. August Wilhelm is the only son to balk at a warlike career and to enter civil life.

Three of the kaiser's half-dozen sons celebrate their birthdays in July. Prince Eitel's birthday comes first, on the seventh. Prince Adalbert, the third son, was born on the fourteenth of the month, and Prince Oscar, fifth of the emperor's stalwart hopefuls, was born on July 27, 1888. The crown prince was thirty-two last May, Prince August was twenty-seven in January, and Prince Joachim will be twenty-four in December.

Vigorol

VIGOROL removes the lazy feeling.

You can feel better, stronger, with one hundred per cent. more vigor and strength, by taking VIGOROL, the Great French Tonic. Every organ will be made clean and healthy. Every drop of VIGOROL contains ambition essences. Headaches, Biliousness, tired feeling, pain in the back and under the shoulders, impure blood and lack of ambition, is blotted out with VIGOROL. Get a bottle if you want to feel strong and full of life. Sold at Campbell's drug store.

A well-known novelist-editor was talking about criticism. "I like pointed criticism," he said—"criticism such as I heard in the lounge of a theatre the other night at the end of a play. "The critic was an old gentleman. His criticism, which was for his wife's ears alone, consisted in these words—"Well, you would come!"

SOCIAL AND PERSONAL

All personal items sent by mail for publication must be signed with the name and address of the sender.

J. E. Eagan, of Vancouver, is a recent arrival in the city.

☆ ☆ ☆

Miss Grace Lewis, of Vancouver, is among the newly-arrived guests at the Empress hotel.

☆ ☆ ☆

Mr. and Mrs. A. Bennett and family compose a party at the Ritz hotel from San Francisco.

☆ ☆ ☆

Mr. and Mrs. W. S. McDonald are staying at the Empress hotel to-day from Vancouver.

☆ ☆ ☆

J. Grant, of Vancouver, is among the guests at the Empress hotel during his visit to the city.

☆ ☆ ☆

Mrs. M. M. Black and Miss Black left yesterday by the Northern Pacific for a trip to Eugene, Ore.

☆ ☆ ☆

D. Banfield left yesterday by the Northern Pacific for a visit to his sister in Kansas City.

☆ ☆ ☆

Mr. and Mrs. J. Ross are Vancouver visitors in the city. They are guests at the Strathcona hotel.

☆ ☆ ☆

Mr. and Mrs. E. A. Jeffries, of Detroit, are staying at the Empress hotel while visiting the capital.

☆ ☆ ☆

Mr. and Mrs. C. Brown Douglas, of Redhill, England, are staying for a few days at the Empress hotel.

☆ ☆ ☆

Mr. and Mrs. J. P. Malden were among yesterday's arrivals at the Empress hotel from New York city.

☆ ☆ ☆

Mrs. E. McLennan and daughter left yesterday by the North Coast Limited for a visit to eastern Ontario points.

☆ ☆ ☆

W. H. and Mrs. Carruth and son are here from Stanford University, Cal. They are staying at the Strathcona hotel.

☆ ☆ ☆

Mr. and Mrs. Robert Carter, Woodlands road, left on an extended trip to St. Louis, Mo., and London, Ont., this morning.

☆ ☆ ☆

Mr. and Mrs. R. C. Barrington Foote, of Maple Bay, who have just returned from San Francisco, are guests at the Ritz hotel.

☆ ☆ ☆

Mrs. M. Ceiling, Miss F. Grimmer and Dr. F. Leeder left yesterday by the North Coast Limited to take the liner Minneapolis for England. Dr. Leeder will attend the medical congrees to be held in London about August 1.

☆ ☆ ☆

L. W. Shatford, M. P. P. for Similkameet, was over from Vancouver yesterday on departmental business for constituents. Mr. Shatford has recently been up in his riding and states that the fruit crops this year are going to be very large. The mining industry is experiencing a revival and there is likely to be a great deal of development on this fall in that part of the province.

☆ ☆ ☆

Very pretty was the quiet wedding which took place on Sunday, July 5, at St. Andrew's cathedral, when Levia, youngest daughter of the late John Quagliotti, was joined in marriage with Fred Leland Lloyd Larkin. The service took place at 9.15 a.m., the bride, who was given away by her brother, Hector Quagliotti, looking beautiful in her traveling suit of old rose brocaded silk with leghorn hat and old rose and aigrette trimmings. After the ceremony a dainty supper was served at the residence of L. J. Quagliotti, 1054 Princess avenue, where many of the relatives and more intimate friends were present to wish the young couple joy. Mr. and Mrs. Larkin left on the morning boat for the mainland, where they are spending their honeymoon, and on their return they will take up their residence in Victoria. Both are well-known and popular in Victoria, and received many beautiful and useful gifts.

☆ ☆ ☆

Mrs. J. C. Barnacle will not be "at home" again, till the first Friday in October, after which she will receive on the first Friday of each month.

☆ ☆ ☆

Mr. Fred. Williams and Miss Ruth Evelyn Fisher were united in marriage last evening by the Rev. Dr. Campbell. After the honeymoon, Mr. and Mrs. Williams will reside in Victoria.

☆ ☆ ☆

On Saturday evening Rev. Dr. Campbell celebrated at "Breadalbane," 1185 Fort street, the marriage of James Edward McGowan and Miss Marguerite Virginia Shools, both of Portland, Ore.

How to Beautify a Summer Soiled Face

It's really a simple matter to renovate a face soiled by sun, winds or dirt. Ordinary mercolized wax, used like cold cream, will transform the worst old complexion into one of snowy whiteness and velvety softness. It literally peels off the outer veil of surface skin, but so gently, gradually, there's no discomfort. The wornout skin comes off, not in patches, but evenly, in tiny particles, leaving no evidence of the treatment. The younger, healthier under-skin forming the new complexion, is one of captivating loveliness. One ounce of mercolized wax, to be had at any drug store, is enough to remove any tanned, reddened, pimpled, freckled or blotchy skin. Apply before retiring, washing it off mornings.

Many skins wrinkle easily with every wind that blows, with heat, worry, etc. An excellent wrinkle-remover, because it tightens the skin and strengthens relaxed muscles, is a wash lotion made as follows: Powdered saxolite, 1 oz., dissolved in witch hazel, ½ pt. This gives immediate results.

FIRST THINGS

The first public official of the United States to face trial in a court of impeachment was William Blount, senator from Tennessee, who was impeached July 7, 1797, 117 years ago today. He was charged with conspiracy with the British to raise the Cherokee Indians against Spain in Louisiana and to disaffect the Indians toward the United States. He was acquitted by a vote of fourteen to eleven. The next official to be impeached was John Pickering, New Hampshire federal judge, charged in 1803 with drunkenness and disregard of the statutes. He was convicted. The following year Samuel Chase, associate justice of the supreme court, was acquitted of charges made against him. James Peck, Missouri federal judge, was acquitted in 1830. West H. Humphreys, Tennessee federal judge, was convicted in 1862. President Andrew Johnson was acquitted by a single vote in 1868. W. W. Belknap, secretary of war, was found not guilty of accepting bribes in 1876. Charles Swayne, Florida federal judge, was acquitted in 1905. Robert W. Archibald, of the United States commerce court, was convicted last year. State governors who have been convicted in impeachment trials include W. W. Holden, North Carolina, 1870; David Butler, Nebraska, 1871, and William Sulzer, New York, 1913.

A fashionably dressed young lady stopped a young constable at Westminster Bridge (says the London Evening News) and asked to be directed to Cleopatra's Needle. The young man was newly transferred to the London force from the provinces, and felt rather embarrassed by the lady's gorgeous appearance. He blushed and saluted. Then, pointing eastward, he said, with the deliberate emphasis of the Lancashire dialect—"Ye see yon car. Well, it's as far from here to yonder as it is from yonder to here."

MUSIC RESULTS GIVEN

Miss Margaret Tilly Wins Fourth Gold Medal; Many Victoria Students Pass.

M. Waring Davis, secretary for Canada of the local examination board of the Royal Academy of Music and the Royal College of Music, has reported the results of the examinations in music held here in May and June this year. Miss Olive Margaret Tilly, daughter of Mr. and Mrs. D. Tilly, of Sylvan Lane, who studied piano under the late Miss Miles and Miss Long, and violin under Miss Ethel Lawson, has now won her second gold medal for pianoforte, which, with the two gold medals which she holds for violin playing, puts her in possession of her fourth gold medal.

The results have been announced as follows:

Advanced grade, honors and gold medal: Olive Margaret Tilly, pianoforte.

Advanced grade, pass: Eileen Clare Dumbleton and Ruth Annetta Simister, pianoforte. Intermediate grade, pass: Marjorie Tennant and Emily Trevaille. L. C. Rudiments of Music: Ethel May Johns and Marguerite V. F. Verrinder. Higher division, pass (school examinations): Marjorie F. Moffat, Lilla Robertson, Christina H. Temple, Edith R. F. Verrinder, Phyllis Wallich, and Victoria Wylde. Lower division, distinction: Frederick Claude Symons and Jean K. V. Taylor. Lower division, pass: Mary Clarke, Cordelia Corfield, Ethel Monica Davie, Margaret Frances Hewett, Inez Lewthwaite (violin), Erna Louise Lorenz, Karla Florence Mathews, Isabella D. M. Taylor, Mohra Jean Terry, Barbara Bullock-Webster. Elementary division, pass: Jean Adam, Elsie M. Armstrong, Alice Mary Beer, Florence Challoner, Muriel Cox, Malcolm Dixon, Cecily L. D. Forester, Winifred M. Gilmer, Mona Neville Graham, Lorna McD. Greenshields, Eva Griffith, Marjorie V. Haynes, Agnes Constance Kingham, Noelle V. Lewthwaite, Charlotte Lovekin, Laura Macklin, Mary Eileen McFadden, Olive E. McLean, Ruth Melville, Grace Evelyn Moses, Rita Ormiston, Thyra Runnalls, Margaret Simister, Elizabeth A. Suttie, Irene Tennant, Marion Bullock-Webster, Mary Wightman.

Primary division, pass: Lloyd Percival Campbell, Margaret Monckton Case, Georgina M. Crook, Marjorie M. C. Currie, Ethel Mary Gardner, Bruce Gilmer, Colville Graham, Doris Joyce Grubb, Evelyn Hammond, Violet Hastings, Marion Grace Phipps, Emma M. Malcolm, Hilda Margetts, Ethel M. McLean, Myria Moore.

Unless otherwise specified against the name of the candidate, the pupil was examined in pianoforte music in all above classes.

The following passed in Grammar of Music, division II: Frances Aldersey Hallam and Lilian Mary Woodward.

The following passed in Grammar of Music, division I. Ilace Elvina Gardner and Erna Louise Lorenz.

SCRAP BOOK

Hawaii's 16th Birthday as a Possession of Uncle Sam.

Sixteen years ago to-day, July 7, 1898, the United States congress passed a joint resolution annexing Hawaii to the United States. Since then the "Pearl of the Pacific" has made great strides in commerce, industry and education, but, although the Stars and Stripes float over the islands, Hawaii is far from being a "white man's country."

The latest census figures show that the Japanese are the dominating race in the islands. Out of a total population of 191,909, the sons of Nippon number 79,674, or more than two-fifths of the whole. There are 21,674 Chinese and 4,533 Koreans, so that the total Asiatic population is considerably more than half of the whole.

There are only 26,041 pure-blooded native Hawaiians. Those of mixed Caucasian and Hawaiian blood number 8,772, while the Asiatic-Hawaiians total 3,734. It will thus be observed that intermarriage between whites and natives has been commoner than between Asiatics and Hawaiians.

The pure Caucasian element numbers 44,048, and of these a little more than half, or 22,303, are Portuguese. Caucasians of American birth form a comparatively small portion of the population, notwithstanding the efforts to induce American immigration to the islands. Nearly 5,000 Porto Ricans now reside in Hawaii, and there are about 700 negroes and mulatto people.

Practically every race under the sun is represented in Hawaii's small but cosmopolitan population. English is the official language, but it is spoken by less than half of the people. Japanese is the tongue most often heard, while of European languages Portuguese has been, until recently, the dominating language. The natives are now being instructed in English, and the rising generation of all races will have a speaking acquaintance with the language of John Bull. The Japanese take kindly to the instruction of their youngsters in English, but they are also taught Japanese at home.

Hawaii offers opportunities to make—and lose—money to the capitalist, but the poor man can do better almost anywhere else. The Orientals are willing to work for a pittance, and the white laborer who goes to Hawaii is forced to accept the yellow man's standard of living, unless he has mastered a skilled trade or a profession that relieves him from the necessity of competing with the Japs.

While Hawaii is an agricultural country, farming has to be carried on on a big scale to be profitable. Sugar is Hawaii's greatest source of weath, but the successful operation of a sugar plantation requires a small fortune. Pineapples and rice are the next most important crops. The Chinese are the leading rice growers of the islands, and they have been more successful in that industry than either the Caucasians or the Japanese. The Hawaiian pineapples are famed throughout the world, and the pineapple growing and packing industry is rapidly growing in importance.

The white man who goes to Hawaii with a small capital finds his greatest opportunity in coffee growing. Except during the packing season a force of four or five men can care for a hundred-acre coffee plantation.

A weather-beaten damsel somewhat over six feet in height and with a pair of shoulders proportionately broad, appeared at a back door in Wyoming and asked for light housework. She said that her name was Lizzie, and explained that she had been ill with typhoid and was convalescing. "Where did you come from, Lizzie?" inquired the woman of the house. "Where have you been?" "I've been workin' out on Howell's ranch," replied Lizzie, "diggin' postholes while I was gittin' my strength back."

"Not long ago," says a lawyer, "I attended a trial, during the course of which there was summoned as witness a youthful physician. It was natural, of course, that counsel for the other side should, in cross-examination, seize the occasion to utter certain sarcastic remarks touching the knowledge and skill of so young a doctor. 'Are you,' demanded the lawyer, 'entirely familiar with the symptoms of concussion of the brain?' 'Yes, sir.' 'Then,' continued the lawyer, 'I should like to ask your opinion of a hypothetical case. Were my learned friend, Mr. Reed, and myself to bang our heads together, should we get concussion of the brain?' 'Mr. Reed might,' smiled the youthful physician."

There is a lad in a certain Scottish town who is noted for his shrewdness. The other day he was sent by his father to a neighboring public-house with the following order: "Please send to our house ten dozen ale." Now, it so happens that one of the publican's faults is propensity to poke his nose into other people's business, and so, when he had read the order, he could not help ejaculating: "Guid gracious, laddie, and whatever is yer fether gaun tae dae wi' sae muckle ale?" For a moment Johnnie was puzzled, knowing that his father wouldn't like him to exactly tell the truth. Then an idea occurred to him, and he quietly replied: "I'm no verra sure, but I think he's gaun tae mak, a cock frame, and he'll need the corks."

"THE QUEEN OF TABLE WATERS"

OAK BAY FREE FROM CRIME SAYS THE CHIEF

Tells Council There Was No Contravention of Code During June

That Oak Bay was absolutely free from crime of any nature during the month of June was the tenor of the monthly report Chief of Police Syme presented at the Oak Bay council meeting last evening. There was subjoined the statistics dealing with the number of by-law cases in the police court and the moneys collected by and paid to the treasurer.

This showed that two persons had been convicted of infractions of the by-law relating to the control of bicycles, that one had been fined for contravening the license by-law and another for disregarding the provisions of the Motor Traffic Regulation Act.

The money collected showed a sum of $195 gathered as traders' licenses, $30 for dog tax, $28.50 in police court fines and $6 in pound fees.

In addition, the report stated that 57 miscellaneous reports had been attended to and 17 fire permits issued, while 32 owners of property had been notified in connection with the noxious weeds by-law.

In regard to the last question there was some discussion among the councillors as to the procedure after the owners had been notified and no action had been taken by them. Councillor McGregor was strongly in favor of having the thistles cut down immediately should no action result on the part of the owners. Councillor McGregor's enmity towards the thistles was so apparent that the reeve was moved to remark:

"But I thought you were a member of a Scottish regiment."

To which the councillor instantly replied: "Yes, but these are Canadian thistles."

During the meeting a letter was read from the Plumbers' Union which informed the council that the citizens of the municipality of Oak Bay were being imposed upon through the negligence of the sanitary inspector. The council decided not to move in the matter until the union is more specific in its statements and actually outlines in what manner the supposed negligence is operating.

The question of whether the by-laws relating to the purchase of a site for municipal stables and for the erection of the buildings could be put at the same time was referred to the next meeting. Another complaint was received as to the great inconvenience arising out of the blasting on Sunrise avenue.

Routine business of an unimportant nature occupied the attention of the councillors for the remainder of the session.

Sewing Machines for sale, 1105 Douglas.

DRINK DOESN'T HELP YOU

Says Doctor Charles W. Eliot, late of Harvard University, and one of the world's leading thinkers: "Recent researches tend strongly to show that even the moderate drinking of alcohol is inexpedient. No longer are men who are exposed to cold, heat, fatigues or hardships of any sort prepared or braced by any form of alcohol."

SUGGEST BASIS FOR CONDUIT SETTLEMENT

Committee's Porposals Before Council; Company Says No More Conferences

The city council last evening decided to invite tenders for the building of the new city jail, the special committee which has been dealing with the matter having reported favorable on that course. The plans of J. C. M. Keith had been approved, but Mr. Keith stated in a covering communication that the provision for the detectives' quarters in the new building would add $7,500 to the cost of $72,500 which he estimated for the building without this provision. In a letter written to the special committee, Chief Langley had advocated the housing of the detective department in the general building.

The only criticism of the report came from Alderman McNeill, who thought too many separate offices were being provided. There could have been a large general office for transacting the department's business with the public.

Chief Davis drew the attention of the city council to the moving of dynamite through the city streets. Recently three tons had been carted to the Esquimalt and Nanaimo railway in two wagons. He indicated what would have happened if a street car had collided with one of these powder magazines, and suggested that the explosives by-law should be amended to cover the passage of powder through the streets. It was decided that the city solicitor and the fire wardens should report on the steps necessary to prevent a continuance of the haulage of explosives through the streets.

In view of the impending departure of Alderman McNeill to attend the convention of the Union of Canadian Municipalities at Sherbrooke, Quebec, it was decided that a committee consisting of Mayor Stewart, Aldermen Bell and Todd and the city clerk should draft a suitable resolution for presentation to the convention officials, inviting the convention to Victoria in 1915.

Renewing a protest lodged some weeks ago, Joseph Smith, a garbage collector, has again objected to the city council allowing its men, in collecting the garbage in the downtown districts, to injure his business by representing that collections must be made by city carts. The sanitary committee will report.

The council adopted a report from the parks committee which suggested that the council pay the doctor's bill of a child who broke his arm at Beacon Hill park playground. The question of the further surveillance of the playground by a policeman from 5 p.m. onwards during summer evenings was referred to the police commission.

Victoria has been invited to be represented at the annual session of the Sanitary Inspectors' association of Western Canada, which meets in Winnipeg this month, but no action will be taken.

The tent by-law becoming operative at an early date, two applications, from William Young and F. Young, were read, and referred to the fire chief and assessor for a report.

The following expropriation settlements on Fort street, between Linden avenue and Yates street, have been made: George Robinson, $778; A. Wilson, $330; T. Ellis, $2,082; Angus Campbell, $900; Mrs. Isabella Nimmons, $1,075. W. A. and G. Clarke will be paid $1,225 for 2,225 square feet of property taken for the Hillside avenue widening, and $500 will be paid to the B. C. Land and Investment company for James A. Douglas for 1,462 square feet on Fairfield road.

The repairs on the Point Ellice bridge will be executed at a cost of about $4,000. The hand rail and considerable rivetting will be renewed.

The Hickman Tye Hardware company, which recently tendered lowest for the supply of pipe fittings but did not get the contract, will be informed that the goods purchased in the open market were secured at a cheaper figure than that stated in the company's tender.

Mrs. Subbubs (to tramp): "Out of work, are you? Then you're just in time. I've a pile of wood to be cut up and I was just going to send for a man to do it." Tramp: "That so, mum? Where does he live? I'll go and get him."

WILL CALL FOR BIDS ON NEW CITY JAIL

Tenders to Be Invited at Once; Passage of Dynamite Through Streets

The most difficult problem which has arisen in connection with the work of the city council this year, an inheritance of the aggressive activities of three or four years ago when a serious attempt was made to remove the telephone poles from city streets, is the question of the underground system of the B. C. Telephone company.

Intimation was given to the city council last evening, in a report from the special committee on the alternative proposals, that the company will hold no more conferences and that the city must settle within ten days. However, in spite of the ultimatum, action was deferred until the next meeting.

After the passage of the by-law the company proceeded with the underground work, which has been completed at a stated cost of about $70,000. City debentures issued under authority of the by-law to the amount of $50,000 have been handed to the telephone company, and an equal amount has been retained by the city.

It was stated last evening that there is $5,000 owing by the company to the city for work done on Douglas street, and that work totalling $45,000 has been done outside the original area, which was to have been levied as a local improvement charge. However, the court last year held such by-laws bad, as the necessary preliminaries had not been carried out by the city.

The report of the committee last night suggested settlements on the following basis:

"1. The telephone company to return the debentures now held by it ($50,000) and abandon its claim to the balance of the issue, $50,000.

"The telephone company not to insist upon the procurement of easements except that, in cases where an owner refuses the company necessary entry or compels removal of system already established, then if the company cannot otherwise arrange a system at the point in question, the city will procure the easement for the company under the provision of the statute and agreement, but the company shall pay one-quarter of the compensation and the claimant's party and part costs (if any) awarded against the city.

"The city to convey to the telephone company all underground conduits now installed in the city streets.

"The city to release the company from the claim for installation of existing conduits on Douglas street between Johnson street and Humboldt street.

"2. In the alternative the company is willing to cancel the agreement and make use of poles on the city streets as heretofore, and accept $100,000 as compensation for damages.

"3. As a further alternative the company is willing to accept the sum of $60,000 and all underground conduits, and to release the city from all claims under the agreement.

"In view of the fact of the liability cast upon the city by the agreement contained in the by-law approved by the ratepayers, the committee is of the opinion that the first of the above proposals of settlement is the most advantageous one under existing circumstances."

Alderman Todd suggested that the report should be laid on the table for further consideration, and moved a resolution accordingly.

The mayor said the committee had reported on the matter because the company had put an ultimatum to the council "to do something."

Alderman Sargent discussed the by-law of 1910, which is the basis of the controversy. He doubted if it was ever intended for the city to make the payments for easements, because there was no limit fixed as to what those easements would cost. The first thing to have been done was to have secured the easements, and then put in the conduits. Instead of that the present council was faced with the fact that the conduits had been placed before the easements were secured. In view of what had happened, he doubted if any judge would order the council to pay any charges which might be incurred. Some mistake had been made in the understanding of the wording of the by-law. It would be a strategic act for the company to bind the council to pay 75 per cent. under a new agreement. If the council had made an error four years ago, it behooved the council to be especially careful in 1914.

Alderman Bell said it had been clearly understood in 1910 that the council would have to pay something like $100,000 for these easements.

Alderman Todd: "If it was understood by the council, it certainly was not by the citizens."

Alderman Bell declared he could not sign a report which would turn over the conduit system to the company. He was against what was practically a partnership with a corporation, which was a dangerous precedent. The alderman opposed the creation of perpetuity in the telephone monopoly, which would check the city in any future scheme, such as would be considered if any other company wanted to enter the telephone business. Whatever happened, the council could not get the poles off the street, for the B. C. Electric Railway company would not remove its light poles.

Alderman McNeill alluded to the explanation, which had been made to the public when the by-law was passed. It was a bad bargain, for which ex-Mayor Morley was blamed, justly or unjustly. At any rate the public had been informed that the city was merely financing the undertaking by borrowing $100,000 for these works. There was no question that the agreement was adverse to the city as it had been drafted. He understood from President Farrell that the company would force the securing of easements by the city. He also was told that not only would the company want $100,000 damages, but would demand the amount of $70,000 expended.

Aldermen Bell and McNeill got into an argument with regard to the actual terms of the proposal of President Farrel.

Alderman McNeill, however, pleaded for a time limit on the easement, contending the whole question should be defined.

Alderman Bell indicated that Mr. Halse had given an ultimatum that no more conferences would be held, and that action would proceed in the courts at once.

The motion of Alderman Todd was agreed to, the matter being laid over for a week for the furnishing of copies of the alternative proposals, and of the original by-laws to each aldermen.

CHAIRMAN NOT NAMED

Mayor Withdrew Appointment of Ald. Cuthbert's Successor on Bridge Committee.

An unexpected difficulty arose in connection with the appointment of a successor to Alderman Cuthbert as chairman of the special Johnson street bridge committee when the matter was mentioned at the city council and Mayor Stewart indicated that he had appointed Alderman Okell as his successor to complete the negotiations.

Alderman Okell was not in his place at the time when the announcement was made, and Alderman Sargent rose and questioned whether the appointment should not be made by the alderman, rather than by the mayor.

His worship pointed out that all chairmen were named by him. As a matter of fact Alderman Cuthbert had been chairman of the committee before it was enlarged to include the whole council, and his chairmanship had been confirmed by the aldermen subsequently.

Alderman Sargent was preparing to explain his position further when the mayor indicated that he had withdrawn the nomination. His worship would not reconsider this decision.

The meeting adjourned without any appointment being made to the vacant chairmanship.

In connection with the negotiations regarding the bridge, the city solicitor reported, that the solicitors were considering the draft agreements for the various interests, government and railways, concerned. He hoped by next week to mak a positive report to the council.

Mrs. Goodsole (feeding tramp): "You seem to have a good appetite." Hungry Higgins: "Ah, mum, dat's all I have left in de world dat I kin rightly call me own!"

MUST HAVE BURIAL ROOM

By-law for Diversion of Sum From Seawall Loan to Fix Up Block in Cemetery Will Be Prepared.

Pressed by the lack of cemetery accommodation, the city council last evening decided that the finance committee and the city engineer should take steps to grade, clean up and improve block Q at Ross Bay cemetery at a cost of about $3,000. It is probable, as this work is urgent that a second by-law will be submitted proposing the diversion of funds from the Ross Bay seawall loan for this purpose. One by-law has been passed for construction of the driveway and the bank between the wall and the cemetery, works which were built from the balance of the seawall loan.

Alderman Sargent pressed the matter on the attention of the aldermen. He said that action must be taken immediately, as the matter was most urgent. The cemetery was filling up rapidly.

Humbser Beer is thoroughly fermented, the purest and most satisfactory drink offered to the public; 10c a glass at The Kaiserhof.

DIVIDEND NOTICE NO. 23

OUR LETTER BOX

Letters for publication in Daily Times must be received at the Times Office not later than the day before the day of publication. When received later they will be held over until the following day.

While unobjectionable anonymous communications will be published, the name and address of every writer of such letters must be given to the editor.

AN ANGLICAN'S PROTEST.

To the Editor:—In Sunday's Colonist it is reported that the members of the Orange association will, on Sunday next, parade to St. John's Anglican church, where they will attend Divine service and be addressed by Rev. F. A. P. Chadwick.

As a member of the Anglican communion, may I be allowed to point out that whatever their private opinions may be, their presence as a body of representative Orangemen in an Anglican place of worship is distinctly contrary to the doctrine and spirit of the Church of England.

In the first place, judging by reports of resolutions passed during grand lodge sessions and other occasions, it is evident that the Orange association exists, to a large extent, for the purpose of disseminating certain political views. This I have also had impressed upon me forcibly, in the course of conversations with members of the order.

The Church of England, according to the spirit of her canons and articles, has no party politics. Her function is purely spiritual. Her priests at their ordination receive authority to "preach the Word of God, and to minister the holy Sacraments in the congregation."

In view of the foregoing, Mr. Chadwick's connection with this part of the Orangemen's 12th of July celebrations strikes one as somewhat peculiar.

In the second place, the Orange association is conspicuous by its violent hostility to a particular section of the Christian church—the Roman. This is abundantly evident in the pages of Orange literature, periodical and otherwise. The Church of England is no party to the condemnation of other churches, as witness her declaration in the preface concerning ceremonies in the Book of Common Prayer, viz., "and in these our doings we condemn no other nations, nor prescribe anything but to our own people only." "Nations" here means, of course, "National churches."

I have been informed by Orangemen that the chief requirement necessary to admission to their society is that applicants must be "Protestants."

Considering this, I fail to see how a priest of the Anglican church can consistently be a member of the Orange association, or take any part in its demonstrations. Neither in the Book of Common Prayer nor in the canons of the church does the word "Protestant" occur. Anglicans declare themselves to believe in one Catholic and Apostolic church. This is quite definite. Protestantism may mean anything or nothing. The very word implies negations. Many Anglicans, like the writer, are rather curious to know on what authority Mr. Chadwick is acting in this matter and what are his reasons for so far departing from the spirit of the church to which he is ordained. Such a demonstration in an Anglican place of worship appears to be decidedly unlawful and is extremely distasteful to numbers in the Anglican communion. It may be urged that the Orange association is a benefit society. This may be so, but one may be pardoned for expressing the belief that the benevolent aspect is purely subsidiary.

ANGLICAN.

July 6.

IMMIGRATION PROBLEM IN BRITISH COLUMBIA.

To the Editor: Public opinion is very much taken up in British Columbia by the immigration problem, whether white or Asiatic.

Business conditions in western Canada have changed during the last few years to such an extent that whereas formerly labor was wanted from whatever nationality, nowadays there is a vast amount of people who are looking in vain for work.

Industries and labor employing concerns have cut their payrolls often by more than 50 per cent. No capital has been found to start new industries during this crisis, and in order to cope with the situation the government has found it necessary to prohibit the admittance to British Columbia of white laborers. This will work all right in the end, but meanwhile the labor question is a very serious one, and no government can neglect to look it straight in the face and handle it in a farsighted way.

Meanwhile, Asiatic labor, such as Japanese, Chinese and Hindus have been allowed to enter under restriction, but this has not prevented the Japanese from entering at the rate of 856 in 1913-14 and the Chinese to the extent of 5,500 in that same year, according to the immigration statistics of the board of trade. The Dominion government has entered into an understanding with Japan as to the number of immigrants that are allowed to land per year, while with the Chinese the number has been restricted by a heavy entrance tax levied on them.

We note from the start that white labor as compared to Asiatic labor is under present circumstances laboring under a very great disadvantage. On the one side there is absolute prohibition for white laborers to enter, and on the other side we find more or less fictitious restrictions, which experience has proved not to materially alter the right of admittance. If those were the only difficulties we might tax them as merely business considerations, but there is no doubt that other arguments and objections are raised against Asiatic immigration, of which we should like to mention only a few.

The first objection is from an economical point of view. The Asiatic laborer works for less wages, has considerably less needs, is of a very thrifty nature; he does not buy national products, and is content with spending as little as possible in the country where he works, while his savings go towards improving the lot of those he has left behind, and are very often sent in considerable sums to his land of origin. He is consequently a non-productive element considered as a settler, and competition between him and the white man, with his needs and his way of living, will always work against the latter. We have seen how these Japanese and Chinese settlements have developed most unsatisfactorily to the general welfare of the countries where they have located. California has been swamped with Japanese. British Columbia is being gradually taken hold of by the same. Some of its retail businesses, such as truck gardening, dairy farming, not to mention the large fishing business, have gradually passed into these foreign hands, with a dead loss to many a white settler, who has been simply driven out of his farm by them. It has not taken many years to produce this state of affairs, and it is not to be wondered at that public opinion is frightened at the possible consequences to the general commerce of the country. But still deeper-rooted is the ethical objection of the Asiatic immigration.

The great difference in education, in ideas, in principles which makes it an impossibility to assimilate our corresponding ideas is the main stumbling-block, and is a factor which never can be counted for too much, nor can it be done away with. These races are far purer and have been less subjected to interferences from outside than the white races. During centuries they have developed and bred unity of purpose and thoroughness in every branch of human activity, which makes of them a far stronger race whose natural tendency is to absorb and to react against the efforts which might tend towards assimilating them.

We cannot withstand their onslaught, neither as regards their numbers nor the tendency of their natural instinct. They act as a whole under the impulse of national traditions, with none of the super-intellectuality which characterizes our modern white civilization, but which constitutes its very weakness. Intellectual superiority may commend a passing preponderance, but will not stand the prolonged attack carried against it by nations of inferior culture. The example of the Roman empire, which could not resist the invasion of the Teutonic and Vandal races from the north, is sufficient proof of this assertion.

It is consequently selfish instincts of preservation which compel us to stand against the invasion of these Asiatic races. The great difference in morality, as applied in business as well as in private life, goes far to explain the apprehension with which the holding of large interests by these foreigners must needs be considered by the white man, although we do not herewith want to imply that their principles are inferior to ours, a consideration which it would sometimes be hard to answer in favor of the white man; but it is a different standard and a different point of view which carries with it practical consequences to which we do not agree to submit.

Let us be frank. We have to acknowledge the fact that we are afraid of them. We are afraid of their competition. We do not want to acknowledge their ultimate superiority as a whole in opposition to our individual efficiency. We cannot fight them with our own weapons, therefore we consider them inferior, but their weapons of attack and defence are as good and will probably in the long run prove better than ours. Therefore, say we, do not let us start the fight.

If these are the arguments against Asiatic immigration, we ought not, as sensible men, to forget how the same problem presents certain phases which ought to be considered favorably other than from a business or self-preserving point of view, and this is from the imperial point of view.

The British empire is passing a grave and far-reaching crisis. After holding its sway over a great part of the world, owing to its navy, it has come, through the natural evolution of things, to the point where surrendering part of her empire to the various nationalities which she herself has bred has become a necessity. These nationalities have owed their existence from the start to the protection given them in their early days by Britain. They are as yet not prepared nor in a condition to safeguard and develop that existence, and ought not, in their own interest to complicate matters which Great Britain to such an extent as to endanger their political as well as economical life. If any shortsighted government of any of the Dominions should want to solve this Asiatic immigration problem exclusively along the lines of its own convenience, it might perhaps evade momentary difficulties, but at the same time would expose itself to international complications of such magnitude that the ultimate results might prove considerable less satisfactory. If not gratitude, which counts little amongst nations, at least the instinct of self-preservation and common sense ought to dictate a wise and prudent policy. Japan has given the world a far-reaching lesson when it brought Russia to its knees. China is as yet all confusion, but will work into an unlimited power, and its potentiality is incalculable. India has more or less loyally stood to the British empire for many years, and is still willing to do so if given fair treatment. Still we cannot neglect to notice the fermenting which is going on under cover of a widely-spread vernacular press. An explosion of feeling might be brought about if any harsh or unfair treatment was given to the Hindus by any one of the dominions, and one mistake might give rise to a movement which no British government would be able to cope with.

Britain, in order to save her colonies, would have to send her squadrons into far-away seas, leaving her own shores unprotected, and Germany would not hesitate to step in at that time. The result would be that the dominions would be left to themselves, depending upon their own resources as nations. Therefore, the dominions will have to adopt a policy which strengthens Britain in any dealing with the Hindu problem. They will have to build their own navy and militia, which alone will entitle them to the right to handle this immigration problem in time according to their own needs.

Meanwhile they have more to gain than to lose by acting in harmony with the imperial policy of Great Britain, who, unless her colonies make grave mistakes, endangering the future, has up till now proved to the world its capacity of leading millions of subjects of every race to prosperity and well-being.

General Sir Ian Hamilton gave Australia an imperial piece of advice when he said that Australian ought first to build up a navy and her defences before legislating against the Asiatics. The same applies to Canada and South Africa.

The dominions cannot have it both ways. Either renounce British protection, sever connections, and work out their own destinies, or stick to the old colors and shape your future along imperial lines.

B. SCHOCH.

Vancouver, July 4.

TO-DAY IN CANADIAN HISTORY

Major-General J. Graves Simcoe began his term as lieutenant-governor of Upper Canada on this date in 1792, and established his government in the little village of Newark, the Niagara of the future. Under the bill passed in 1791 by which Canada was divided into upper and lower provinces, Lord Dorchester continued to act as governor-in-chief. Major-General Sir Alvred Clarke became lieutenant-governor of the lower province, and Simcoe was chosen for a similar position in the then wild and almost unsettled upper province. Simcoe was a gallant soldier and an able administrator. He had served in the revolutionary war in the colonies to the south. At Brandywine he gave a good account of himself as commander of a regiment. Later he served under Cornwallis, and was with that general when he surrendered at Yorktown. As lieutenant-governor of Upper Canada Simcoe proved to be the right man in the right place. He had the instincts of a pioneer, and he was never happier than when he was planning settlements and cities and acting as the advance guard of civilization in the wilderness. In the September following his assumption of office he opened the first assembly of the province at Newark. As a capital he considered the village at the falls to be too much exposed to possible assault by the Americans, and one of his first cares was to seek a new and more suitable seat of government. In the heart of the wilderness, far removed from danger of American attack, he found a desirable spot on the Thames, now the site of the city of London. After further consideration, however, he changed his plans, and in the midst of a gloomy forest on the shores of Lake Ontario he founded the city of York as the permanent capital of the province. The name of York was later changed to Toronto, and with the passing years it has become the metropolis of the province and the second city of Canada.

In Great Britain we have about 19,000,000 persons engaged in occupations for gain whose incomes do not exceed £160 a year, and of these some 15,500,000 are manual workers or wage-earners.

The Head Nurse Says:

"It is in time of sickness that clean blood and right living show their value."

One can begin to-day to make clean blood and build healthy body and brain—proper food will do it.

All of the essential body and brain-building elements are found in

Grape-Nuts

and cream.

Grape-Nuts food is made from whole wheat and malted barley. It contains all the nutriment of the grain, including the mineral elements (phosphate of potash, etc.,) that are so necessary to health.

These elements stored under the outer coat of the wheat and barley are all retained in making **Grape-Nuts—**

A food for body and brain—easily digested and appetizing.

TO CITY SUBSCRIBERS

In order to render the best possible service, we request city subscribers to immediately phone or write The Times Circulation Department in all cases of non-delivery or bad delivery of paper on the part of any carrier.

Do not pay any collector without obtaining printed receipt, which please keep. This may save trouble in future.

If, for any reason, you wish us to stop delivering the paper, you will help considerably by notifying the office instead of the carrier, who is liable to forget.

Especially to those subscribers whose residences are some distance from the sidewalk we recommend the use of a metal newspaper holder, to be obtained from our Circulation Department for the small sum of 35c. Easily affixed and a boon during the winter months.

Victoria, B. C., June 20, 1914.

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the matter of the Estate of Francis Henry Wollaston, late of Victoria, British Columbia, deceased, intestate.

Pursuant to the Order of the Honorable the Chief Justice, dated the 29th day of June, 1914, I hereby offer the following lands for sale, viz.:

The northwest corner of Block "X," part of Sections twenty-three (23) and sixty-nine (69), Victoria District, Map 368, being one acre more or less in area and having a frontage of 120 feet on Oak Bay avenue, and 390 feet on Oliver street. Said lands will be sold en bloc or in parcels. Offers to be made to the undersigned or to Charles E. Wilson, Barrister, Board of Trade Bldg., Victoria, B.C.

Dated June 30, 1914.

ALICE V. WOLLASTON,
Administratrix,
2311 Oak Bay Ave., Oak Bay, B. C.

AT OBSERVATORY SITE

A Pleasant Excursion; Chief Astronomer Delighted With Spot Chosen for Large Telescope.

A pleasant excursion to Little Saanich mountain, where the great telescope will be located, was made on Saturday afternoon by the Victoria branch of the Royal Astronomical Society, some 50 attending. They had the privilege of meeting Dr. W. F. King, C. M. G., chief astronomer of Canada, and Dr. Plaskett, director of solar physics research, and hearing the experts' opinion on the nature of the site for an observatory.

Dr. King expressed his satisfaction not only with the site, but also with the clear character of the atmosphere, which he declared particularly suitable for telescopic observations. In fact he determined to stay with Dr. Plaskett, and E. H. Cotterell, the honorary secretary of the branch, till midnight to examine the stars with the telescope that the party had brought. Dr. King intends to repeat these observations at intervals during the next week.

The party was delighted with the beautiful outlook, with vista of woodland and lake, and the seascape. Refreshments were partaken of at the site. When easy access has been provided to the property there is no doubt it will become the Mecca for scientists.

The telescope is to be housed at the top of the hill in a circular building, 70 feet in diameter, fitted with a revolving steel domes. The offices and necessary buildings will be at a lower level, together with five houses for the resident staff. The provincial government will build the road to the observatory as part of its contribution to the scheme.

Mrs. Wheeler's family and the new baby were being freely discussed by their nextdoor neighbor. "Isn't it strange they didn't name the baby after her rich uncle?" said one. "No, he looked at it, and said he'd give them one hundred pounds not to."

NOTICE

CORPORATION OF THE DISTRICT OF SAANICH.

Assessment Notices have this day been mailed to all owners whose addresses appear on the Assessment Roll. Any persons not having received a notice are requested to communicate with me immediately.

R. R. F. SEWELL,
Assessor.

Dated May 30, 1914.

IN THE ESTATE OF JANE NOBLE, DECEASED.

All persons having claims against the above named deceased are required to send particulars thereof duly verified to the undersigned, on or before August 1st, 1914, after which date the Executors will proceed to distribute the assets of the deceased among the persons entitled thereto, having regard only to the claims of which they shall then have had notice.

Dated at Victoria, B. C., this 27th day of June, 1914.

E. E. Wootton,
Bank of Montreal Chambers, Bastion Street, Victoria, B. C., Solicitor for the Executors.

"To Preserve the Peace Be Prepared for War."

NAVAL VOLUNTEERS.

A limited number of men of varied occupations may be enrolled as members of the above force at 307 Jones Building, Fort street (where all information relating to the force may be obtained), between the hours of 10 a. m. and 6 p. m. on Wednesday next, 8th inst.

Professional and business men, clerks, etc., and men interested in the following recreations or occupations are especially invited, viz.: Yachting, engineering (electrical and mechanical), telegraphy (wire and wireless), shipwrighting, carpentry, boat building, plumbing, etc., and all classes of mechanics; also any residents of Victoria, Esquimalt and Oak Bay having an aptitude for nautical matters.

Age limit, 18 to 45 years.

A meeting of members, recruits and others interested in the Naval Volunteer movement will be held at Christ Church Cathedral Schoolroom, Quadra street, on Tuesday next, 7th inst., at 8 p. m., when the organization of the force and conditions of enrolment therein will be fully explained.

G. H. LIFTON,
Hon. Secretary.

NOTICE

In the Matter of S. L. Scholey and F. E. Scholey, Insolvents.

NOTICE is hereby given that the above-named insolvents, Sidney Laing Scholey and Frank Edward Scholey, of Cowichan Lake, British Columbia, carrying on business at Cowichan Lake, B. C., have, by deed dated the 26th day of June, 1914, made an assignment of their estate to me for the general benefit of their creditors, under the Creditors Trust Deeds Act.

The Creditors are notified to meet at the office of Wilson Bros., at the City of Victoria, on the 15th day of July, 1914, at 10.30 o'clock in the forenoon, for the purpose of receiving a statement of the Insolvents' affairs, for the appointment of inspectors and giving of directions with reference to the disposal of the estate.

All persons claiming to be entitled to rank on the estate must file their claims with me on or before the 30th day of July, 1914, after which date I will proceed to distribute the assets thereof, having regard to those claims only of which I shall then have received notice.

Victoria, B. C., July 2, 1914.

PERCY WOLLASTON,
Manager, Wilson Bros.,
532 Herald St., Victoria, B. C.

NAVIGABLE WATER PROTECTION ACT.

NOTICE is hereby given that A. O. P. Francis, of the City of Vancouver, B. C., and Thomas Hope Leeming, David Leeming and John Leeming, of the City of Victoria, B. C., are applying to His Excellency the Governor-General of Canada in Council for approval of the area, plans, site and description of the works proposed to be constructed in Victoria Harbor Upper Basin, Victoria, B. C., being land situate, lying and being in the City of Victoria aforesaid and known, numbered and described as Lots Seventeen (17) and Eighteen (18), Block "L," Harbor Estate, Map No. 16, and have deposited the area and site plans of the proposed works and descriptions thereof with the Minister of Public Works at Ottawa, and a duplicate thereof with the Registrar General of Titles at the Land Registry Office at the City of Victoria, B. C., and that the matter will be proceeded with at the expiration of one month from the time of the first publication of this notice in The Canada Gazette.

Dated this 5th day of June, 1914.

A. O. P. FRANCIS,
THOMAS HOPE LEEMING,
DAVID LEEMING and
JOHN LEEMING.

By their Solicitor, Sydney Child, Suite 204 Hibben-Bone Block, Victoria, B. C.

A House Bargain

EXCHANGE—½ Sec. near Gainsborough, Sask., and house in Gainsborough, for property in Victoria. Northwest Real Estate Co., 1212 Douglas street. jy9

COURT OF REVISION HEARS MORE APPEALS

Saanich Residents Present Objections Against Assessments; Works Committee

When the Saanich court of revision resumed its sittings this afternoon those cases of persons protesting against their assessment who failed to attend yesterday were heard So numerous were the appeals that the court had a heavy day's work yesterday but it cleared off the list all those protests where owners appeared in person or by legal representative.

The reeve announced this morning that the court, after dealing with the remaining protests, would sit to consider its finding in the various cases in which judgment was reserved yesterday.

City officials are confident that the Saanich court has no option but to exempt from taxation on the Elk Lake waterworks and all properties held in connection with the plant, including the watershed and the North Dairy pumping station, whether in operation or otherwise. So far as the parks are concerned the city authorities favor a by-law being presented to the Saanich residents providing for the exemption of parks and reserves for all time, rather than to have a nominal value set on the parks which a succeeding assessor would not be bound to respect.

That there is great dissatisfaction with the assessment is manifest, the large number of persons lodging objections being a proof of this. The attitude of the council is that an equalization of taxation was inevitable, while the ratepayers declare that the practice of the city might well have been followed, and that the assessment of 1913 should have been allowed to stand for 1914, when real estate values have, if anything, decreased rather than advanced.

The works committee of the Saanich council will meet to-night. It is expected that the by-law in connection with the waterworks will be ready for presentation at the next council meeting on Tuesday next, the purpose being to pass it through council as soon as possible.

WELCOME REDUCTION

Board of Trade Council Discusses Freight Charges as Between Eastern and Western Canada.

That the Victoria Board of Trade welcomes the reductions ordered by the board of railway commissioners, which slightly lessen the disparity between freight rates charged in eastern Canada and in western Canada, but emphatically protests against the discrimination which still remains between rates ordered by the commissioners for the carriage of freight in western Canada, and the rates charged for similar services in the east was the gist of a strong resolution passed by the council of the board this morning.

The council reiterated the position the board has always taken that no basis of freight rates can be fair, just and equable to the people of the west which permits of high rates being charged for carriage of freight in Western Canada.

A communication from the Toronto board of trade called attention to the fact that May 24 and June 3 were legal holidays, and asked the opinion of the local board as to the advisability of cancelling June 3.

James Forman drew the notice of the council to the facilities offered the people of the eastern provinces to obtain cheap excursion rates to the prairies for harvesting, and suggested that similar rates should be given from this coast. The council of the board approved of the suggestion, and it was decided to await the decision which H. W. Brodie, the chief passenger agent of the Canadian Pacific railway in British Columbia, is expecting from headquarters.

A communication from the board of trade of Kelowna advised the local body that a fair will be held there from September 22 to 24, and called attention to the opportunity to visit that district and see what people there are doing towards the upbuilding of the province.

LOCAL NEWS

Invigoration Without Inebriation—The altogether delicious Humbser at The Kaiserhof.

☆ ☆ ☆

Call of Fire—The fire department was called last evening to a shed at the rear of 126 Dallas road. There was only a trifling loss.

☆ ☆ ☆

Passed Accounts.—Accounts were passed at a meeting of the works committee of the Esquimalt municipal council yesterday evening. The business was purely of a routine nature.

☆ ☆ ☆

School Board. — A considerable amount of business awaits the attention of the school board to-morrow evening. Numerous applications have been received for the posts in the graded schools, and three teachers have to be appointed for the high school. A school nurse is to be named, and in this connection the board will be guided by the advice of Trustee Dr. Hall, and the health officer of the board.

☆ ☆ ☆

Busy Friday Afternoon.—The streets committee of the city council will receive two deputations on Friday afternoon, one about Fort street and the other concerning Oak Bay avenue. The latter deputation will probably intimate what class of paving is wanted for Oak Bay avenue east of McGregor street to the city boundary. Prior to the committee meeting the special committee appointed to report on the request of the B. C. Manufacturers' association for preference for local products will meet to consider its report.

☆ ☆ ☆

Experimental Farm Picnic.—A basket picnic will be given by the Victoria and Saanich Farmers' institutes on Friday, commencing at 11 a. m., at the Dominion Experimental Farm, Sidney. The proceedings will be attended by Hon. Price Ellison, minister of agriculture; W. T. Macdonald, livestock commissioner; W. E. Scott, deputy minister of agriculture and R. M. Winslow, horticulturist. A very large attendance of members of the various institutes is anticipated. Addresses will be given and a most enjoyable time is assured.

☆ ☆ ☆

To Go to Vancouver.—The labor unions here are making efforts to be largely represented at the gathering of the B. C. Federation of Labor in Vancouver on Monday. Victoria has three leading members of the executive in Alexander Watchman, president; A. S. Wells, secretary, and B. Simmons, a vice-president. The miners will be extensively represented, and men are expected from the Crow's Nest and Prince Rupert—in fact from all parts of the province where labor organizations exist. The miners of the Alberta and Eastern British Columbia field are particularly concerned about the Hillcrest disaster, and reference will be made to that tragedy and the causes which led up to it.

REQUIEM MASS HELD

Funeral of Sister Mary Gertrude; Many Priests Present as Well as Sisters of St. Ann.

Requiem high mass was held this morning at 8 o'clock for the late Sister Mary Gertrude, whose funeral took place in the chapel of St. Ann's convent, Rev. Father Leterme assisted by Father Lemmens, of Cook's Island, and Rev. Father Scheelen, of Cowichan, officiating. Owing to her long association with the hospital, where she had spent eighteen years as a nurse, and the convent, where she had lately gone on the teaching staff, the greatest sorrow is felt by all the nurses and members of the Order of St. Ann at the convent, all of whom were present at the services this morning and marched out behind the bier to the Roman Catholic cemetery, Ross Bay, where committal services were held.

Among the priests who were present were the Vicar-General, Rev. Father Leterme and the two other priests above mentioned; Father Silver, Father Cortenraad, and Father Macdonald, all of Victoria; Father Rondean, of Saanich; Father Heynen, of Nanaimo; and Father Macdonald, of Vancouver.

The pallbearers were: Messrs. F. J. Sehl, A. Lineham, C. A. Lombard and J. L. Forde.

Sister Mary Gertrude, who died on Saturday evening from an attack of acute pleurisy, was a native of Guernsey and forty years of age, and eighteen years ago joined the nursing staff of the St. Joseph's hospital, where she was much valued for her ability and personality, as well as beloved for her gentleness of disposition and patience.

ASTRONOMER SPEAKS OF GREAT TELESCOPE

Dr. King Addresses Canadian Club; Why Victoria Was Selected as Site

Some of the reasons why Victoria was chosen as the location for the world's greatest telescope were outlined this afternoon by Dr. W. F. King, C. M. G., chief astronomer of the dominion, in an address before the Canadian club at the Empress hotel.

In deciding where to place the telescope, the department had taken meteorological returns from all over the dominion, after which it had selected three or four stations, one in the great plains, one in the mountain region, the third in the interior of British Columbia, and the last on Vancouver Island. The department had finally decided the vicinity of Victoria to be the most acceptable, firstly because there was less unsteadiness in the atmosphere than in other parts of Canada, and finally because of the low range of temperature. Dr. King explained that a big range is apt to change the focal length, and thus spoil the result in certain intricate observations.

In an interesting manner he contrasted the new telescope with the only one of its size ever made, that constructed by Lord Rosse in Ireland 70 years ago. The difference, however, was so great that there was scarcely a single point of comparison. There were no markings on the Irish telescope, while this new one is to be put on an equatorial stand.

The cost of the new telescope would be $90,000, and parts of the lens would be made in France. Many people seemed to have the idea that the optical part was the most expensive, but in this case the mounting of the instrument would cost $60,000, leaving $30,000 for the optical portion.

Amid loud applause Dr. King stated that provision would be made for the public to make use of the telescope when so desired.

The remainder of Dr. King's admirable scientific address dealt mainly with the work which the department is now doing in Ottawa and the various stations throughout the Dominion. The work was divided roughly into two methods—the old astronomy and the new astronomy. The first dealt with the stars projected on the spherical surface of the sky, which were observed by large telescapes whereby the astronomers could measure the motions of the heavenly bodies, and by observations at different times, find their distance from the earth; the second was the spectroscopic method in which the point of light, which was the star, was drawn out into a rainbow strip of light by means of which it was possible to get at some of the fundamental points in the structure of the universe.

An interesting comparison was made between the work of the astronomer and that of the physicist. The latter dealt with physical matter in minutae, while the former regarded in the bulk. Co-ordinated these two sciences were able to evolve very valuable information as to the nature of the earth and its surrounding bodies.

Sir Richard McBride, who moved a vote of thanks to Dr. King, announced that the minister of works is now working on the preliminaries for a thoroughfare from the main highway to the top of Little Saanich mountain. He paid a splendid tribute to the international fame of Dr. King and the splendid research accomplished by that gentleman in his particular field of endeavor.

In addition to the premier there were present M. B. Jackson, president of the club; G. H. Barnard, M.P.P.; Hon. D. M. Eberts, and Dr. Plaskett, director of solar phyhics for the Dominion.

GOOD BILL AT PANTAGES

Performance This Week Provides Audience With Plenty of Amusement; All Turns Laughter-Provoking.

With one exception all the turns at this week's performance at Pantages theatre are of the laugh-provoking type, and a continuous smile hovers over the audience from the first to the last once the clever and, in spots, startling performance by Standard Bros. is completed. This number in itself is quite interesting as a study in strength and agility, and a part of the act, where the two athletes stand blindfolded for a jump which would ordinarily require considerable proficiency with clear vision, proved an excellent test of the high training and combined study which they had undergone.

Lillian Jewel's manikins, "as real as life and twice as funny," wrung tears of merriment from the spectators. The little puppets, who performed on a small stage before a puppet audience which went gravely through all the performance of applause and noisy comment, were astonishingly well manipulated, and the antics of the tango dancers, the elastic stretchings and dwarfings or Mutt and Jeff, and, best of all, the baseball match, kept the house in a state of uproarious laughter. Miss Jewel, who appeared for a moment before the curtain, was given a hearty ovation.

In the "Schoolmaster," presented by Hendricks and Belle Isle company, decidedly the funniest character was Patsy, Mr. Belle Isle himself, closely seconded by C. A. Hendrix, who took the part of schoolmaster to the said redoubtable Patsy, whose antics would have kept a more alert and acrid teacher on the verge of suicide. Several very tuneful choruses were provided in this turn, and a "Sissy," yclept Percy; Nimble Thumb, and three girls kept up the fun.

The original American Newsboys' Quartette provided some original harmony and entertainment. Cooper and Ricardo, two novelty entertainers, between them succeeded in distributing a spirit of comedy and art.

WELSH WINNER OF LIGHTWEIGHT TITLE

Immense Crowd Witnesses Sensational Battle for World's Honors

WELSH ENTERED RING A VERY STRONG FAVORITE

Boxers Declared Themselves to Be in Perfect Condition Before Fight

London, July 7.—Fred. Welsh, lightweight champion of England, and Willie Ritchie, lightweight champion of the world, arrived in London today from their training camps at Porthcwil, Wales, and Brighton, respectively, for their fight to-night in the great arena of Olympia in the west end of London. Both boxers declared themselves confident of winning the championship and said they felt in the pink of condition. Their looks bore out their statements.

Welsh was favorite in the betting by a slight margin, probably due to the support which his Welsh compatriots have been giving him at Cardiff, where most of the betting so far has been 5 to 4 in his favor.

The two men weighed in at Olympia this morning when Ritchie scaled 134 pounds, while Welsh was just able to get within the stipulated limit of 135 pounds. Welsh still ruled favorite in London during the morning at odds of 6 to 4, but the odds shortened and it was predicted by followers of the sport that even money would be offered when the men entered the ring.

Rev. J. Hervey Boudier was chosen to act as master of ceremonies at the match, the Bishop of Stepney having objected to the Rev. Everard Digby's officiating. Eugene Corri was chosen as referee.

Father Boudier, vicar of St. Michael's Anglican church, Islington, is a popular, burly clergyman who encouraged his parishioners to box and to play football and cricket. When he was a curate at Cardiff in 1902, he established a temperance saloon in which he placed a crucifix over the bar. The venture was an immense success.

"Father" Boudier climbed through the ropes shortly before 8 o'clock in his clerical garb and announced the names of the contestants in the first of the preliminary bouts.

The great revival of interest in pugilism in Great Britain was evidenced by the big assemblage of all classes which congregated in the great arena of Olympia. The newspapers had predicted a large attendance of women, but there was only a small sprinkling of bright dresses in the cheaper seats around the sides.

Welsh entered the ring at 9.58 amid lusty singing of the Welsh hymn, "God of Our Fathers," by hundreds of his countrymen. The betting was 7 to 4 on Welsh.

Ritchie appeared at 10.03. Hearty applause greeted him.

Round One.

Welsh wins the toss and keeps the corner he originally entered. Welsh got in a few blows in the clinch which immediately followed. Ritchie responded to these with a straight left to the jaw. Infighting followed with Welsh getting the better of the argument. When they squared off, however, Ritchie delivered several body blows.

Round Two.

Ritchie swung hard with his right and missed. He was cautioned by the referee for holding in the clinches. Welsh got in some vicious jabs in the infighting.

Round Three.

Ritchie opened with a left swing but in a clinch Welsh landed on the body. In close quarters Welsh got in a couple of jabs, Ritchie retaliating with a left to the jaw. Welsh followed with a right to the same spot. The round ended with Welsh landing lightly on the face. Ritchie was again cautioned for holding.

Round Four.

Welsh fought for the body. Then in a clinch gave Ritchie two or three left hooks on the jaw, followed by a right swing on the same spot. Welsh appeared the fresher of the two, smiling when the gong sounded.

Round Five.

Ritchie got one to the face, Welsh replying with a left to the jaw. Ritchie then sent a straight left to the jaw and a heavy body blow. Ritchie forced the fighting but was repeatedly cautioned for holding.

Round Six.

Ritchie's left eye seemed to be slightly swollen. Welsh's left eye was also damaged. Ritchie played for the bad eye. Welsh dodged a right hand swing aimed at the bad eye. Welsh's footwork was much the quicker but his blows seemed to have less steam than the American's.

Round Seven.

Half of the round had passed before Ritchie began forcing the fighting. He landed two smart blows on the face. Welsh responded but the American covered up well and the round ended in his favor.

Round Eight.

The work of both fighters thus far had been very constant and sharp. Most of the hitting had been body fighting, ending in clinches. Welsh appeared to be beginning to husband his strength in the clinches. He then put on more steam and gave the American one good body blow and seemed fresher at the end than at the beginning of the round.

Round Nine.

Welsh forced the fighting, opening with a left to the face, an operation which he quickly repeated. Ritchie's blows continually fell short. Welsh was setting a furious pace and got in several blows to the body and got the best of the infighting. This was Welsh's round.

Round Ten.

Welsh forced the fighting, scoring repeatedly on Ritchie's jaw. He then eluded one of Ritchie's famous right arm blows. Welsh had the better of the fight thus far.

Round Eleven.

Welsh, who came up smartly landed a sharp left on the face. Ritchie again failed to reach the spot effectively, with his busy right. The fighting was hard and fast. Ritchie regained some of his ginger.

Round Twelve.

Welsh scored with a left hook on Ritchie's neck. Ritchie repeatedly led out hard left handers but Welsh was always too quick for them. The Welshman scored three or four punches in this round but they seemed to make no impression on the American, who showed great stamina.

Round Thirteen.

Ritchie smartened up and landed two straight rights on the face and a sharp uppercut. The American forced the fighting all through the round, Welsh slowing up considerably. It was a good round, all in favor of Ritchie.

Round Fourteen.

The American got in a short hot left on the body. Later he repeated with the right. The fighting was fast and fierce to the end of the round. This, like the preceding round, was Ritchie's.

Round Fifteen.

The first half of the round was a hugging match with both men working hard in the clinches, Welsh trying to wear his opponent down. There was a couple of rallies but no damage was done. The round was even.

Round Sixteen.

There was more infighting, each receiving a good tap on the face. The Welshman ducked a terrific right-hander. The fight continued a fine exhibition of boxing by Welsh, who played entirely on the face, while the American tried for a body knockout.

Round Seventeen.

Ritchie's round.

WELSH WINS

At the end of the twentieth round the referee awarded the fight to Welsh on points.

TO-DAY'S BASEBALL

JAVELIN RECORD.

Stockholm, Sweden, July 7.—A new world's record for throwing the javelin was created yesterday at the Baltic games by F. Myyrae, of Finland, who threw 63 metres, 29 centimetres, or approximately 207 feet 7½ inches. The American record hitherto has stood at 169 feet, 10¼ inches. The world's record made at the last Olympic games was 200 feet, 1 11-20 inches, by J. J. Saaristo of Finland.

JAVELIN RECORD CREATED.

Stockholm, Sweden, July 6.—A new world's record of throwing the javelin was created to-day at the Baltic games by F. Myyrae, of Finland, who threw 63 metres, 29 centimetres, or approximately 207 feet, 7½ inches. The world's record made at the last Olympic games was 200 feet 1 11-20 inches, by J. J. Saaristo, of Finland.

Personal.

Mrs. J. York, 1526 Belcher street, will not received to-morrow nor again this season.

Building Permits—Building permits have been issued to N. D. A. Syolander for a workshop on John street, and to T. H. Horne for alterations to 1215 Pandora avenue.

The discovery of gold particles in a duck's gizzard has, we are told, caused a rush of mining prospectors to Liberty Township, Ohio. It is expected that the duck will shortly be floated as a limited liability company.—Punch.

Bobbie: "Will you send mother a leg of mutton, please, Mr. Bones?" Bones: "Yes, my boy." Bobbie: "And mother says if it's as skinny as the last the man needn't knock; he can push it through the letter-box!"

Housewives League

We are pleased to see the interest the Housewives League is taking to help reduce the high cost of living, especially in introducing the copper coinage. We are using them, and a glance over the following list will give you an idea of what we are doing to help reduce the high prices by using more bulk goods and less goods put up in packages.

ROBLIN CLOSES TOUR IN MANITOBA ELECTION

Opposition Confident While Government Side Counts on Majority.

Winnipeg, Man., July 7.—Sir Rodmond Roblin closed his tour of the province at Manitou, where he addressed a large gathering of electors last night, and the balance of the time until the elections on Friday he will spend in his constituency of Dufferin. At Manitou Sir Rodmond declared the opposition were only certain of one seat, and while they would carry more than that he was sure a majority of the constituencies were absolutely sure to return government supporters.

On the other hand the opposition profess entire confidence in the result and their slogan is, "There's going to be a change on July 10." An interesting feature of the campaign is a joint meeting this evening which will be addressed by the two Conservative and the two Opposition candidates in Centre Winnipeg, speaking in an order decided by lot.

The campaign is assured of a warm finish. Many meetings are announced for Winnipeg and throughout the province and the leaders and their followers will be in the fight until the last ballot is polled.

GREAT NORTHERN TAKES WATER AT PHILADELPHIA

Philadelphia, Pa., July 7.—The steamship Great Northern, built for the Great Northern Steamship company, to ply between Portland, Astoria and San Francisco, was launched today at the Cramp shipyards. The vessel was christened by Mrs. E. M. Lacey, wife of C. C. Lacey, marine superintendent of the steamship company. The Great Northern is 525 feet long and will be fitted up for both passenger and freight service.

OBITUARY RECORD

The funeral of the late John Calvin, whose death occurred on July 4, took place this morning at 8.30 o'clock from the chapel of the Sands Funeral Furnishing company, and at 9 o'clock mass was said at the church of Our Lady of Lourdes, Willows, by Rev. Father Vullinghs. There was a large attendance of friends, and the floral tributes were numerous. The pallbearers were: Messrs. J. J. Mahoney, J. A. Devine, E. Harthington, A. Casanave and P. Crater.

SUGGEST JAM FACTORY

Large Amount of Berries Exported From Island Annually; Publicity at Panama Pacific Fair Urged.

The B. C. Manufacturers' association, which is anxious to see a jam factory established on the island, pointed out in a letter read to the city council last evening, that through the absence of a factory on the island $40,000 worth of berries is annually sent from the island to be manufactured elsewhere. The letter was ordered to be sent to the Victoria and Island Development association.

In view of the expressed wish of the Manufacturers' association to be placed in touch with all information about the industrial commissioner's office, it is understood that when by-laws are drawn up by the provisional council, the scheme will provide for representation of the Manufacturers' association on the body. Any assistance the association can give the Development association on publicity matters will be welcomed.

Following his return last week from the convention of Rotary clubs at Houston, Texas, Jesse M. Warren was a caller to-day on Commissioner Cuthbert. Mr. Warren suggests that arrangements should be made to distribute literature about the city at the Panama Pacific Exposition. A bureau of information in San Francisco maintained in a similar way to that of the Hawaiian Promotion committee would be advantageous.

Edwin Lee, secretary of the Ucluelet branch, called on the commissioner to-day to talk over road improvements in the district and to place before him suggestions for improving the communication between the settlers around Barkley Sound.

DISCUSS NEEDS

Friendly Help Association Decides to Make Appeal to Citizens; Donations Acknowledged.

At the meeting of the Friendly Help Association held this morning in the association rooms, Market Buildings, a formal resolution was passed in favor of making a special appeal to the people of Victoria for subscriptions and offers of positions for out-of-work men in the city. This resolution was passed after lengthy and serious discussion. It was felt that the citizens did not fully realize the pressing need there was for some alleviating action. Miss Lawson, the secretary, reported that no less than 58 families, not individuals, but whole families, where many small children were involved, had been assisted during the past month, this being nearly double the number for the same month in any previous year.

Attention was called to the fact that too often people did not help where they might. Cases were known of men who had sought work in return for food or money, but those to whom they had applied had preferred to give them either of the latter rather than work. This was placing a premium on idleness, and members of the association were requested to impress upon their friends the inadvisability of such action, as nearly everyone could find something for a man to do whereby he could really earn a meal. Considerable routine business was disposed of at the morning meeting, although most of the discussion revolved on the matter above cited. Subscriptions or openings for work should be reported to Miss Lawson.

Grateful acknowledgement was made of the following donations received during June:

Cash from the city, the B. C. Benevolent Society, E. B. T., R. F. Taylor, F. C. Gamble, Henry W. Driver, Cloverdale Grocery, A Friend, staff at Pemberton & Son and P. Burns & Co.

Clothing from Mrs. Burgess, Mrs. Heath, Mrs. Christopher, Miss Thomson, Miss Stream, Mrs. A. E. Foreman, Mrs. W. G. Cameron, Mrs. Lewis, Mrs. J. Leeming, Mrs. Anderson, Turgoose, Miss Sing, Glenshiel Inn, Miss Wooldridge, Miss Herd, Mrs. Mellin, Miss Taylor, Mrs. Heming, Mrs. Gourlay Lang, Mrs. Edward Parsons, Mrs. J. S. C. Fraser, Mrs. Radbourne, Hon. W. Templeman, Mrs. F. W. Fawcett, Mrs. Neroutsos, H. A. Ross, Mrs. Stewart, Mrs. G. H. Pethick, and Miss Williams.

Baby carriages from Mrs. Wilkinson and Mrs. Fleming.

Groceries from Mr. Dee.

Shoes from Mrs. Burgess and Mrs. Pease.

Milk from Mrs. Pease.

VISITS CITY LABORATORY

Dr. McGill, Dominion Analyst, Pays Visit to Victoria; Commends Local Equipment.

Dr. Anthony McGill, F. R. S. C., chief analyst of the Dominion, was a visitor to the city on Saturday. He has been on the coast in connection with the organization of a branch laboratory at Vancouver. The intention of the department is to establish branch laboratories at Halifax, N. S., Winnipeg, and Vancouver, in order to relieve the congestion of business at Ottawa, and Dr. McGill was able to announce that temporary premises have been secured at Vancouver for British Columbia. The order-in-council establishing these laboratories under the department of inland revenue provided that the analysts who are appointed shall have taken a twelve months' course at the Ottawa laboratory.

Dr. McGill paid a visit to the city laboratory here and expressed his surprise that the city was so well equipped for food analysis. He was also surprised to find that one official accomplished so much for the various departments, health, police, etc., as the present incumbent.

METAL MARKET.

New York, July 7.—Lead dull, $3.85@$3.95; in London, £19 15s. Spelter steady, $4.95@$5.05; in London, £21 10s. Copper steady; spot and September, $13.45@$13.85; electrolytic, $13.87; lake nominal; casting, $13.62. Tin steady; spot, $31.95@$32.20; September, $32.10@$32.20. Iron quiet, unchanged.

It was a recruit's first appearance at the rifle range. The range officer tried him first at 500 yards, and the recruit could not come within a mile of the target. Next the officer tried him at 300 yards; then at 200 yards, and finally at 100 yards. His last shot was even worse than his first. The officer looked at him with disgust and, losing his temper, shouted the command in his face—"Attention! Fix bayonet. Charge the target! It's your only chance!"

Financial News

LIST ADVANCED WITH ENDING OF SESSION

French Loan Over-Subscribed Exerts Good Influence on Financial Affairs

(By F. W. Stevenson & Co.)

New York, July 7.—In view of the lean demand from outside sources for stocks, the room crowd were working for a decline in prices. Towards the close of the session professionals were covering and advances resulted.

Losses were only fractional and sentiment was buoyant, the French loan over-subscription exerting a goodly influence on basic feeling.

In this regard it is understood that monetary conditions abroad will improve immeasurably after the immediate needs of the French government have been supplied.

Foreign states should then be able to finance their requirements and thus relieve private bankers who have long been carrying the bulk of recent war burdens.

BULLS LOST GROUND AS PIT SESSION PROGRESSED

(By F. W. Stevenson & Co.)

Chicago, July 7.—Reports of black rust in the northwest were received less frequently in the day's session, and as a result there was a natural easing in prices from the higher figures of the opening. Hedging sales were moderate, and the export demand was called good. Cash houses were offering a little more freely for they have sold immense quantities last few days. Weather conditions generally were favorable for the marketing of winter wheat and local receipts were high.

The government report is due immediately after the close to-morrow.

ATHABASCA CLOSED AT HIGHEST RECORD MARK

Granby Strong; Lucky Jim Zinc Held Advance; Oils Featureless

Athabasca Oil closed to-day at the highest level of its advance movement. Demand for the stock was as emphatic as ever and offerings well above the bid price.

With no injected new influence to enthuse buyers, the Calgary oil list was marked by plentitude of stocks for sale and only small support. Whilst a tight condition was to be noted in various leaders of this department, there was little or nothing to inspire immediate confidence, apart of course from Athabasca, which should be typified as an Edmonton issue.

Granby was strong at 81@83, at which point buying has been a notable factor. Great West Permanent Loan had a softer appearance. Lucky Jim held the cent advance of yesterday with offers at six.

EIGHTH HIGHER FOR WHEAT AT WINNIPEG

Winnipeg, July 7.—Wheat opened ⅛c. to ½c. lower on Liverpool cables, being disappointingly weaker than expected, and lower American markets. Following the opening there were further declines in July and October months, and a fair, brisk trade was carried on at the declining values. Later reports of the spread of black rust in the spring wheat states caused a considerable reaction in prices, which at 12.30 were ¾c. to ⅞c. over opening figures. Closing was unchanged to ⅛c. higher.

The cash demand for all grains was slow apart from number 1 northern wheat for which there was a fair inquiry. Export inquiry was very limited on this market. A dispatch from Chicago stated that about 15,000,000 bushels of winter wheat has been sold for export. Cash wheat closed unchanged for No. 1 northern and ½c. lower for No. 2. Cash oats were unchanged. Cash barley closed unchanged to ½c. higher. Cash flax closed ⅞c. lower.

Deliveries through the clearing house were: Wheat, 55,000 bushels; oats, 29,000 bushels; flax, 29,000 bushels; and barley, nil.

Inspections Monday totalled 495 cars, and in sight were 235.

GILLETT'S LYE EATS DIRT

MEETINGS

Elks' Social.—The Elks will hold a basket social and flannel dance in their clubrooms, Campbell building, Thursday evening. Elks and friends are invited.

☆ ☆ ☆

Rotary Club.—At the weekly luncheon of the Rotary club at the Westholme grill on Thursday at 1 p. m., P. M. Linklater is to speak on "The Influence of Clothes on Civilization," and H. C. Lane is to present a novel telephone offering.

☆ ☆ ☆

Social Tea and Sale.—The Mary and Martha society of St. Paul's Lutheran church will hold a social tea and fancy work sale on the afternoon and evening of Wednesday, July 8, at the residence of Mrs. W. F. H. Thompson, 2317 Blanshard avenue. The ladies extend a cordial invitation to all to attend.

☆ ☆ ☆

Devotional Meeting.—The Luther league of St. Paul's Lutheran church will hold its monthly devotional programme in the school hall, corner of Princess avenue and Chambers street, on Thursday evening at 8 o'clock. All will be welcome.

☆ ☆ ☆

Will Elect Officers.—The monthly meeting of the Ladies' Auxiliary of the St. Andrew's society will be held on Monday, July 13, in the A. O. F. hall. The election of officers will take place. After the meeting a whist drive will be held at which all friends will be made welcome.

☆ ☆ ☆

Social at St. Paul's.—A social reunion and concert under the auspices of the Ladies' Aid society of St. Paul's Presbyterian church, to mark the reopening of the church, will be held this evening at 8, in the church building. The names on the programme include Mrs. W. A. Gleason, Mrs. Morrison, Mrs. Longfield, Miss Harkness, Messrs. Jesse Longfield, J. G. Brown, Robert Morrison, William McDonald, and John Hall. The ladies will serve refreshments. A collection will be taken in aid of the improvement fund.

☆ ☆ ☆

Naval Volunteers.—Recruiting begins to-morrow for the Victoria company of the Royal Canadian Naval Volunteers, the first to be formed in the Dominion and in existence before the recent action taken by the federal government recognizing the movement. Preliminary to this a meeting will be held in the schoolroom of Christ Church cathedral, Quadra street, this evening at 8 o'clock, for the purpose of explaining the organization of the force and conditions of enrolment to all interested. Recruiting will go on between the hours of 10 a. m. and 6 p. m. in room 307, Jones building, Fort street, to-morrow and following days. An invitation is extended to a limited number of men of varied occupations, especially to yachtsmen, electrical and mechanical engineers, telegraphers, radio-telegraphic operators, shipwrights, carpenters, boatbuilders and all with an aptitude for nautical affairs.

☆ ☆ ☆

Rockland Park W. C. T. U.—Rockland Park branch of the W. C. T. U. will meet to-morrow afternoon at 3 o'clock at the Gorge park for a picnic. Members are requested to bring refreshments, and small children will be welcomed with their elders.

"I HAVE GAINED FIFTEEN POUNDS"

Since Taking 'Fruit-a-tives" and Feel Like a New Person"

"Drysdale, Ont., June 15, 1913.

"I am a general storekeeper at the above address and, on account of the great good I have experienced from using 'Fruit-a-tives,' I recommend them strongly to my customers. They were a great boon to me, I can tell you, for about two years ago, I was laid up in bed with vomiting and a most terrific pain at the base of my skull. This pain nearly drove me mad. Doctors feared it would turn to inflammation of the brain, but I took 'Fruit-a-tives' steadily until I was cured. I have gained fifteen pounds since taking 'Fruit-a-tives' and I verily believe they saved me from a disastrous illness.

"J. A. CORRIVEAU."

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

MINISTERS PICNIC

Ministerial Association Spends Enjoyable Afternoon at Cadboro Bay With Games and Sports.

Anyone who watched the members of the Ministerial association at their picnic at Cadboro' Bay yesterday afternoon could not have been other than impressed with their capacity for the enjoyment of the less serious things of life. Nearly thirty of the association members, with their wives, went out by the 2.15 car to Cadboro Bay beach, and spent a most delightful afternoon with games and sports, supper being served at 5.30 by the ladies, and prizes being distributed later to the accompaniment of amusing speeches by Rev. Hermon Carson, chairman of the association, who presided; Rev. Thos. Green and Rev. Robt. Connell, who had charge of the sports' programme; Rev. Dr. McRae, Rev. C. M. Tate, Dr. Cameron, Rev. Mr. Philp, Rev. S. J. Thompson, Dr. C. T. Scott, Rev. C. G. Brown and Rev. John Robson.

The sports included a caber-throwing contest, Rev. C. G. Brown winning first; Rev. C. J. Thompson second, and Rev. Thomas Keyworth, third prizes. Rev. Hermon Carson, Rev. Joseph Philp and Rev. Mr. Robson won the prizes in "The Duck on the Rock" contest, this being followed by an amusing "Addition Race" by teams of ladies and gentlemen. The winners in this were Mrs. Philp and Rev. C. M. Tate, the ladies who won in the reversal of the game being Mrs. Scott and Mrs. Robson. Dr. Scott obtained the "pie" prize, and Dr. McRae a consolation prize for being unable, on his own admission, to tell a joke. The potato-race winner was Rev. C. G. Brown, and Rev. T. W. Gladstone was awarded first and only prize for telling the best funny story of the afternoon. Other prizes awarded went to Mrs. Keyworth, Miss McConnell and Mrs. Green, the proceedings concluding with three hearty cheers for the chairman, for Cadboro Bay, and for the success of the outing, which it is hoped to make an annual function.

Finest Meals in the City at least expense—The Open-Air Cafe at The Kaiserhof.

CELEBRATED 83RD BIRTHDAY YESTERDAY

Mrs. McNaughton, Honorary President of W. C. T. U., Receives Congratulations

The many congratulations showered yesterday upon Mrs. McNaughton, honorary president of the Provincial Women's Christian Temperance union, on the occasion of her eighty-third birthday, were genuine testimony to the admiration and love in which the recipient of the good wishes is held by a wide circle of friends in the city. If a keen interest in and sympathy for one's fellows constitutes the essence of living, Mrs. McNaughton is still in the very prime of life, as her mentality retains unabated vigor, and much of her time is spent in study of sociological conditions and their practical solution.

The anniversary celebrations took place at the residence of her daughter, Mrs. Clyde, 1320 Johnson street, the room in which Mrs. McNaughton sat to welcome her guests being charmingly arranged with pink sweet peas and pink and white carnations, which were added to during the afternoon by the many floral greetings brought or sent by friends. Twelve members of the family were present to celebrate the happy event, among these being her two daughters, Mrs. Clyde and Mrs. Spofford; and one of her sons, David McNaughton, who lives in Victoria. Another son, William McNaughton, lives in the United States, and there are eleven grandchildren and ten great-grandchildren in whom she has always taken the liveliest interest.

A woman of versatile gifts Mrs. McNaughton is well known in Victoria after a thirty-seven years' residence here. A Nova Scotian by birth, she was the granddaughter of a woman who was the first girl baby born at Sydney, Cape Breton, after the settlement there of the United Empire Loyalists. The period was an interesting one, and many entertaining reminiscences of the time were handed down to the younger generation by those who have succeeded one who was actually a participant in the events of the times.

Mrs. McNaughton has always taken a vital interest in the betterment of the conditions of her fellows, and for many years was an active worker in the Friendly Help association, of which organization she was one of the charter members. The appreciation of her services in connection with the W. C. T. U. has been amply testified to from year to year by her successive re-election to the office of honorary president for the past several years, and at the annual convention held here last month she attended one of the sessions and was presented with a bouquet of flowers as a mark of the esteem in which she is held by her co-workers in the organization. In addition to these interests she has had her home and family to absorb much of her time, side by side with these making leisure for the study of music and literature.

Colonel Scotchem was weary. He had had a very arduous day retreating from the enemy, and he wished to recoup his strength in order that he might retreat still farther on the morrow. "MacPherson," he said to his new servant, "I'm going to snatch forty winks' sleep. Stay by my tent, and see that I'm not disturbed." Mac saluted. Five minutes later the snores of Colonel Scotchem were cut short by the loud report of a gun. "Great Scott!" cried the colonel, "are the enemy upon us?" "Na, dinna fret," replied Mac, inserting his head reassuringly through the tent flap "It was only a wee mousie. But as I thought he might wake you up I shot him."

MUTRIE'S

CHACO MIKA WEEK

Old Boys of the Kootenay Are Going Back There Next Week to Celebration in Nelson.

A Kootenay Old Boys' reunion is to be held next week at Nelson, and the capital of the district is preparing elaborately for the occasion. The week will be known as Chaco Mika week, and there is expected a great gathering of the men who have made the interior what it is in development.

There will be a large party from this city, among those who are intending to go being: Hon. Thomas Taylor, minister of public works; R. F. Green, M. P., who sat for a Kootenay seat when he was in the legislature; N. F. Mackay, M. P. P. for Kaslo; Ernest Miller, M. P. P.; H. B. Thomson, M. P. P.; William Blakemore, who was formerly connected with the Crow's Nest Pass mines; J. S. C. Fraser, manager of the Bank of Montreal, formerly manager of the Rossland branch; George H. Aylard, who still has active interests in that district; John A. Turner, for several years a government official in the Kootenays; G. H. Dawson, surveyor-general; W. H. Silver, manager of the Bank of Nova Scotia; David Doig, manager of the Bank of British North America; R. F. Taylor, managing director of the Colonial Trust company; A. C. Burdick, Frank O'Reilly, J. Herrick McGregor, who has had long experience in that part of the province as a land surveyor; David O. Lewis, resident engineer of the Canadian Northern Pacific railway; Dr. D. La Bau, C. T. Cross, Percy Criddle, Captain J. W. Troup, Major Hodgins, A. Mackenzie and others.

The implement with which gardeners cut the edges of grass-plot—a sort of sharp steel crescent on a stick—is appropriately known as a half-moon. Said the office golf enthusiast to the office garden enthusiast, somewhat jeeringly, "S'pose you spent Saturday morning about your garden?" "No," said the gardener, "I spent it half-mooning!"

A Discount of 25%

for Cash on All Our High-Grade, All Wool Art Rugs

A Remarkable Value is the refrigerator illustrated on the left of this text. It is well built from well seasoned elm and a convenient size for many families. Price only **$12.50**

Protect Your Food From the Attack of the Fly

Taking it for granted that you are a careful woman, a woman who is scrupulous in the care of her food, dish covers are a necessity in your home, and these have a special claim to your attention.

They are reinforced with two strips of steel, under the wire gauge, passing the full length of the cover and two across. These four strips make the cover remarkably strong and durable.

Sizes up to 20 inches from 10 inches are in stock, and the prices range up to 75c each from only **25¢**.

Appearances Are Not Deceptive—They Are as Good as They Look

Ranges Built to Burn Wood and Soft Coal.

OF course it is impossible to fully describe the whole of our line of twenty-two Ranges built specially for burning Vancouver Island coal and pitchy wood, but we are ever ready to show them to you and explain their various special features, whether you purchase or not.

Here are some reasons why we consider this line of Ranges superior to any other:

Fire backs guaranteed for five years.

Built throughout like a locomotive boiler.

Equipped with a patent "stay-Level" top.

Fitted with anti-trap duplex grate.

Oven thoroughly ventilated, and constantly provided with fresh, heated air—prevents "drying out."

Air space behind end linings prevents overheating.

All joints perfectly air-tight; no cold air can enter the flues.

Thoroughly lined with asbestos millboard.

Body made of one solid piece of washable blued steel.

Oven bottom permanently level.

Prices, including cost of connecting to water-boiler, up to $95.00, from only **$35.00**
